ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Totals						49946	Adjusted	2,642.48

The Albert Lea Mine could have produced much more lead during 1944 if a new compressor had been procured, the small work carried on mining the above ores was retarded, due to small old compressor, not providing sufficient volume and air pressure, to operate 2 drills at the same time.

July 29, 1943

Mr. C. Liano
261 West Oak Street
Globe, Arizona

Dear Mr. Liano:

Many thanks for your letter of July 28th. I will be glad to mention your property to anyone looking for a mine equipped as yours is, provided I have some detailed information regarding it.

I am enclosing a Mine Owner's Report form and suggest that you fill it out in complete detail, giving the highlights of the property, and using any additional sheets if the space provided under each heading is so limited that you cannot complete the description.

I am sending a copy of this letter to Mr. A. Macfarlane, engineer for the Department of Mineral Resources with headquarters at Globe, and am asking him to contact you to give you any assistance or information you may require. I do not believe it should be necessary to make a trip to the property but if time permits I feel sure Mr. Macfarlane will do so.

Very truly yours

J. S. Coupal, Director

DEPT. MINERAL RESOURCES
RECEIVED
JUL 29 1943
PHOENIX, ARIZONA

Mr. J.S. Coupal, Director
Department of Mineral Resources
413 Home Builders Bldg.
Phoenix, Arizona

Dear Mr. Coupal:

As you know I have been operating the Albert Lea Mine for the past six months. During that time I have done a great deal of development work. In June I became ill with pneumonia and since then I have been unable to supervise the work at the mine.

I wish you would suggest or give me any information concerning someone who would be interested in this mine.

In the six months we have been developing the mine, we have built chutes, bins, laid tracks and air pipe lines. We also have ore cars, Jack Hammers and all the necessary tools for the operation of the mine. There are 4 high grade veins or ore which are ready to be mined besides other low grade milling ore.

The mine is the Albert Lea Patent Claim where we have done all the development work and also 2 unpatented claims, Albert Lea No. 2 and 3.

Your cooperation in this matter and any information you can render will be greatly appreciated. Thank you.

Very truly yours,

C. Liano
