Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Copper Chief Extension

EXHIBIT B.

This Company is organized as a Mining Corporation, to operate, develop and work its mines and mining claims, situate in Verde Mining District, Yavapai County, Arizona, said mining district being in the northern part of said Yavapai County, in which the towns of Jerome and Clarkdale are situated.

The property of the company is located at, and adjoining the Copper Chief, Green Monster, and other notable mining properties, as shown by the map hereto attached and marked Exhibit B -2-, and consists of twenty unpatented mines and mining claims, known as and called the "Buffalo, Iron Joint, North Star, Contention, Guardian, Protector, Trail, Honey Locust, Link, Peep, Bumper, Free Gold, Malapai, Justice, Three Angle, Sunday, High Line No. 1, High Line No. 2, High Line No. 3, and Rosebud.

None of the claims are patented, but all are duly located, recorded in the Recorder's office of Yavapai County, Arizona, duly worked and improved, as required by law, and have numerous workings thereon, consisting of tunnels, open cuts, etc.

It is the purpose of this company to at once proceed to the working and development of their said property, which is valuable ground, as shown by surrounding properties, especially the "Copper Chief", which company is said to be producing ore from their mines from which a return of Seventy-five Thousand Dollars ($75,000.00) per month is realized. The recent forging ahead of ~~the~~ mining in the territory in and around Jerome has been remarkable, values have increased many fold, and large operations inaugurated in all parts. Capital is flowing in, and extensive operations going on.

Del.

The company's said property is looked upon as among the most eligible, valuable and promising mining properties in that district, and its capital stock is being eagerly sought after. It is the purpose of the company to patent its property as soon as possible, and to proceed at once with its working and development on a large scale.

The company's mining claims are grouped as follows:

The Malapai and eight (8) other claims in one group; the High Line and five (5) other claims in one group, and the Contention and four (4) other claims in one group, all of the said claims being unpatented.

These claims are in the very heart of the Jerome Mineralized District, and the work thereon consists of tunnels, open cuts, and general prospecting operations, as stated.
