FIELD ENGINEERS REPORT

Mine: Princess Pat Property

Date: July 23, 1957

District: Stanley Butte - Graham County

Engineer: Lewis A. Smith

Subject:

The Princess Pat property lies on south slope of Stanley Butte along old Deer Creek (South side mainly) T5S, R19E, Sec. 13.

Reference, for the older data on the property, is made by C. P. Ross, Aravaipa and Stanley Mining Districts, Graham County, Arizona, - USGS Bull. 763, p. 106, 1925.

Original Company was Princess Pat Mining Company, of New York - the Allison Brothers. This company opened a 870 foot tunnel trending N 10°W. Two crosscuts, 100' and 70' respectively, were driven from the tunnel.

Some old shafts are scattered over the property.

At present Reed Crunk and Associates have graded benches and are preparing to erect a 100 ton vat leaching plant. Considerable oxidized ore (malachite, cuprite, azurite) has been developed to feed this mill. A drilling program is anticipated in the future.

14. Principal Minerals: Zinc - gold (copper, gold, silver)

11. Mine Supt.

15. Production Rate:

12. Mill Supt.

16. Mill - Type & Cap.:

13. Men Employed: None

17. Power - Amt. & Type

18. Operations - Present: None

19. Operations - Planned: Plan to ship ore

20. Number Claims, Title, etc.: Six held by locations.

21. Description - Topography & Geography:

22. Mine Workings - Amt. & Condition: One 600 ft. tunnel - one vein 5 ft. wide upon which there is a crosscut - vein crosscut on ore assays 35% rosin zinc across 30 ft. of vein - 40 ft. from this vein there is another vein which assays 6% zinc on rear face. If crosscut driven 40 ft. would cut this vein with about 70 ft. of backs at the top of hill.

Copper, gold, silver is shipping ore. On the north side of property a canyon cuts a vein of copper 7 feet wide showing 6% copper on rear face. Plenty of water. Has about 200 tons of ore on dump ready to ship. One compressor and engine - 4 ore cars and 600 ft. of track. This property could be put into shape to start shipping with little cost and a big low grade milling proposition.

23. Geology & Mineralization: Zinc vein about 30 ft. wide - outcrops several hundred feet upon the surface - assays 6% on rear face. To the west of the tunnel a vein about 9 ft. wide carries values up to $5.00 or $6.00 in gold. Another vein, northeast end of property, there is 7 ft. vein assays 6% copper and $4.00 in gold.

24. Ore - Positive & Probable, Ore Dumps, Tailings: 200 tons milling ore on dump and 1 carload of zinc ore on dump.

24A. Dimensions and Value of Ore Body: A large deposit of low grade milling ore.

25. Mine, Mill Equipment & Flow-Sheet: 600 ft. of track with 4 ore cars and one compressor and engine.

26. Road Conditions, Route: Can drive within 2 miles of property - roads have been washed out - passable until work was closed. About 6 miles east of Coolidge Dam on Safford Highway road turns south at a wash, which will take you to the old Stanley post office. Pass the post office and go until you get to goat ranch. Leave car and walk the old road to the property on Deer Creek.

27. Water Supply: Plenty

28. Brief History: The tunnel was driven by Jack Slasher during World War No. 1. The property was bought by two New York men from Mr. Allsen - paid $40,000 for said property. Property was abandoned for 10 years. I relocated it - held by location.

29. Special Problems, Reports Filed: Property on record - no patents.

30. Remarks: This property can be purchased for $30,000 on a bond and lease with $5,000 down payment with balance of purchase price with 10% royalty on all ore taken from this property until balance is paid.

31 If property for sale - price, terms and address to negotiate: Is for sale at the above terms. If interested in said property see me - can make things worth while.

There seems to be some thing peculiar here. as two parties claim ownership to the same ground — 2 different locations

11/16/81

J.T. Martin who has served nearly a year of a 1-5 yr sentence might have prior rights — should be investigated.

PRINCESS PAT GRAHAM COUNTY

USGS Bull. 763 p. 106

September 8, 1944

War Price and Rationing Board
No. 81.7.1
137 North Second Avenue
Phoenix, Arizona

Gentlemen:

Mr. J. T. Martin, 19th Place and Henshaw Road, Phoenix, is owner of a mine in Hawk Canyon about 25 miles southeast of San Carlos dam. This is a copper property and Mr. Martin is developing it preparatory to bringing it into production. He is applying for sufficient gasoline to make one trip to the property with his operator.

It is recommended that this allotment be allowed.

Yours very truly,

George A. Ballam
Assistant to the Director

March 31, 1942

Mr. J. T. Martin
Box B
Florence, Arizona

Dear Mr. Martin:

Your letter of March 30 has been received together with the revised report on the White Horse Mine. We will substitute this report for the former one, as it has more detail.

I regret that conditions make it impossible or inadvisable to say more about the nickel or the manganese and other properties at this time. I realize that you would be putting yourself in a position where someone might relocate ahead of you and, of course, we would not like to have this done. I believe it will be best to wait until such time as you can get into the field and relocate the various properties, and meanwhile we will try to call the White Horst property to the attention of anyone looking for a good zinc property.

Yours very truly,

J. S. Coupal

JSC:LP

March 27, 1942

Mr. J. T. Martin
Box B
Florence, Arizona

Dear Mr. Martin:

I am returning herewith Mine Owners' Reports which you sent for filing with the Department of Mineral Resources. I am also enclosing new reports which I should suggest that you study thoroughly and fill out in as much detail as possible, listing each property on separate reports. In the report which you sent in for filing you have combined several properties. It would be much better to carry them as individual properties - making a Mine Owner's Report for each property. The more information you give on these reports the better chance we have of interesting capital in investigating your mines.

I am also enclosing copies of Mine Owners' Reports covering the White Horse Mine in the Stanley Butte Mining District and the Brown Quartz Mine in the Baboquivari Mining District, Pima County, which you have previously filed with this department. I believe the White Horse property is included in your new report listed as the J. T. Martin Mine.

Please go over these reports carefully and give as much detailed information as possible and return to this office at your earliest convenience. Upon receipt of these reports I shall be glad to submit them to anyone making inquiry for properties such as yours.

Assuring you of my desire to be helpful, and with best wishes, I am

Yours very truly,

J. S. Coupal

DEPARTMENTAL RECORDS
MAR 31 1942

Dear Sir;

I am sending in the Report of the Princess Pat Property to the best of my noledge. I am not in the position to explain and tell about the Ronnie Lum now for it is gold. I want to get in all the mettals I can for the Refining program. I have a large stream showing proportion of nickle the assay shows 10 of Nickle. At the time there wasn't any demand for Nickle I located it. The my location have run out. And I can't explain or give the locations until after I parole from here to relocate all of my properties I mention before. Rock and water there.

I have a large deposit of Monzite Ore which I have a order from New York Co. wanted 200 tons the said they that is the Red ~~gold~~ Vein. Have a large black Vein assay. a large quantity of ~~nitrate~~ nitrate christals. My location is run out on this property.

I don't feel like I should tell any more on the Iron + Magnesse and other ores for all location have run out. I truly wish you luck in selling of the Princess Pat Property for It is a good thing.

I will be expecting to hear from you.

I remain yours truly
J. T. Martin.

JAN 2 1942

January 27, 1942

Mr. J. T. Martin,
Box 13,
Florence, Arizona.

Dear Mr. Martin:

I have your letter of the 25th, together with the statement regarding your mine. We are very glad to have this information in our files and will make it available to those who are seeking mining properties and metal production in Arizona.

We have been getting quite a few inquiries and we anticipate that, with the higher price of metals offered for new production, we will receive a great many more. In fact, we expect a very considerable activity in new mining. I hope that we will be able to do something for you. Of course, all we can do is to show the report to those who make inquiry and hope tha they will find it of sufficient interest to inquire further. We have no way of forcing the prospective purchaser to make a personal investigation.

Yours very truly,

CHARLES F. WILLIS, Chairman
Board of Governors

CFW:MH

Jan. 25, 1942
J.T. Martin
Box B.
Florence Ariz.

Mr Charles A. Willis.
State Capitol Bldg.
Phoenix Arizona.

Dear Sir;

It is a great pleasure for me to have a man like you. To handle my Property for me. For I know I will have a square deal. That is why I am here because I didn't get a square deal. I receive 12½ years hard in nearly 6 months. I believe I could get a Commute of sentence to date by Pardon and parole Board. If my Property can be used as they are needed in the defense Program

Yours —

with you provided on said property or Engineers provided I could get a commute ~~and~~ Parole'd. So as to operate and help all I can to help in winning this Ward.

I have been mining and Prospecting for 40 years 38 year in Arizona. I was needed in the first world war in Prospecting in Rare metals. ~~the~~ Mr A.C. Heagler ~~had~~ Had the long Valley magamese property. We ship 1 - 70 ton car Umpire Co in South Chicago Ill. Just got started when Peace treaty was sign. As you know that was the last of Magamese ore. I also had other properties I could have ship from. But no market for the ore. Tho now it all is in a demand for said ore's -

and dear Sam.

But if I was out I could be a great help in the U.S. Defence program.

As I could operate for I understand mineing and milling & all of it's branches.

I truly sorry I had to write you from here. As I have never been in trouble before. As you know me and have for a long time.

I will close with hopping you will make a deal for me on these Property so I can be out and help in the U.S. defience Program. The party that tried to fill out the information on the Blond was a failure.

— ms —

I would appreciate it if you will fill out the necessary Reports on file for me off these copies I have written out.

I am trusting to hear from you soon.

I am

R. T. Martin

Florence Arizona

AMERICA FIRST

January 26th 1942
Florence Ariz.

Mr Charles F. Willis
Phoenix Ariz:

Dear Mr Willis:—

I know this Jack Martin & have known him quite a while but don't know anything about his mines. only I know he has been in that business for years. I asked him one day if he had any claims that would be of any use to the Gov. to aid in this war, he said he did but no one would pay any attention to him in here, so I told him I would see if it was of any value to anyone. Well he said go ahead & if they want me it they are welcome to it.

Now Mr Willis, I don't believe this is a dodge on his part to get out at all, but he would like for some one to get what they could out of ~~what~~ it. Now my ingestion would be take Jack right up to the mines & get some samples & see for yourself what the property looks like, then your (or some engineer) would know just what to do about it. Either the Gov. or warden would be glad to let him go if it would help in any way, I'm sure

over

It won't cost much to check up on these properties & if they are good o.k. & if not no one will be out much. They may not want to send a guard with him but if so & I go it won't cost anything for my services. I will donate that much to get the good work started.

If that report isn't made out right send another one & he will do it over.

Hoping every thing will go that o.k.

Am yours Very Truly

Ross E. Cox

Property Name as Princess-
Pat Property.
Held by J. T. Martin
by location notice. This
property consist of 5 full size
Mining claims. They are locat-
-ed in the Standley Butte mining
district in Graham County Ariz.
Not surveied and haven't the map
of Town slip or Range. About 7-
Miles from Coolidge Bridge Down
South East toward Safford Ariz.
~~Also~~ About 20 miles South which used
to be a good Road. Can drive
within 3 miles of property. Road
can be fixed with little cost and
drive to the property. There is plenty
of running water all the year round
on said property. over—

As to the working on the Development of this property which has a 600 ft. tunnel and is a cross cut over 100 ft two each side. First 100 ft. Cross cut. Cut a 6 ft. vein of Rosin Zinc ore. The assays showed 38% Zinc in this 6 ft. cut. 6 Vein 70 ft. from the tunnel to the west there is a Vein of Zinc 20 ft wide which shows 1% on surface of Zinc no Developments on this. This tunnel was driven to get to the old workings that Mr Ellison worked showed 14% copper and $20.00 in silver and $10.00 in Gold when gold was $20.00 per oz. By ~~[illegible]~~ Driving this tunnel 50 ft more would cut the Copper Vein 200 ft in depth. We could ship ore from old working ~~[illegible]~~ at a large Profit at the Price of metals now.

This is a brief statement of Property of Monazite Ore. This Property lays in Graham County.

In my present condition I rather not discribe said property to well. The Ore was tested at Ariz. University at Tucson which I recieve the name of the Ore. Which showed a dark Purple color. Chemist said it is Monazite by the color of the test. One Vein of Red Ore is about 20ft. wide and is easly to get to. And a Black Vein parallel of this Red Vein. which Chemist Mr E. M. Hinslow tested he put it into Acid sualation for 48 hrs. And it showed a deep canary Bird Yellow with white over

~~Chlor~~ Chlorates which looked like Epson Salts.

This is all I can tell you except Mr. E. M. Henslow had sent a 1 lb. Sample to a Company in New City -

A. D. Mackay Co. Industrial and Rare Metals and Rare Chemicals New York City New York. which wanted me to ship them 200 tons at once. The One will run about $300.00 per ton.

Under my conditions it is impossible for me to full fill this order for 200 tons.

For futher information see me I can arrange to go with interested partys at any time.

M. T. Martin
Florence Arizona
Box B.

Had rather work property if possible than sell.
If not would sell on a Bonded Lease provided necessary terms could be reach with 10 o/o down with 10 o/o Royalty's on all mettal for ballance of price is paid. On a Bonded Lease this Property could be sold for $100,000.00.
If right party takes hold this property could be bought in ~~Tell~~ less.
For further information see me near of this property.

J. T. Martin
Florence Arizona
Box B.

I have other property that are Monercial now. Whil is Magagine and also a large Deposite of Iron that assays at 78 o/o Iron. Also have a 8 ft. Vain of Mag — nesure Ore which runs 65 o/o by assay. Close to rail Road with good Road to it.
I am truly sorry that can't give full information on this property's under my Present condation's.
