Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

No information on this property.

MARK GEMMILL

MT-33

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
OWNERS MINE REPORT

Report by
A. Brodie Campbell

Date June 11, 1942

1. Mine Trail Thin Mine

2. Mining District & County White Picacho District Yavapai County.

3. Former name

4. Location 14 miles north Morristown at head of Trilby Creek. On S flank of Bradshaw Mts.

5. Owner Segrid Thrasher

6. Address (Owner) Wickenburg, Arizona

7. Operator "

8. Address (Operator) "

9. President

10. Gen. Mgr.

11. Mine Supt.

12. Mill Supt.

13. Principal Metals Scheelite

14. Men Employed None

15. Production Rate None

16. Mill: Type & Cap. None

17. Power: Amt. & Type None

18. Operations: Present Spasmodic development

19. Operations Planned Develop

20. Number Claims, Title, etc. 8 claims by held by location.

21. Description: Topography & Geography Rugged mountainous. 2,000 ' elevation. Semi-arid climate.

22. Mine Workings: Amt. & Condition None.

(over)

23. Geology & Mineralization Quartz contact between schist and pegmatite. Schist belt over 1[illegible] wide and runs thru country several miles. Scheelite is principal mineral. Apparently occurs in contacts where garnet and quartz are strongest. Schist belt is faulted but traceable.

24. Ore: Positive & Probable, Ore Dumps, Tailings None

24-A Vein Width, Length, Value, etc. None

25. Mine, Mill Equipment & Flow Sheet None

26. Road Conditions, Route Go 9 miles north from Morristown on Castle Hot Springs road to Trilby creek. Go west on Trilby creek road 3 miles. Best to inquire where mine is at Coles mill about 1 mile farther along road than Trilby creek turn off. Poor from there on.

27. Water Supply Poor and not much chance to develop.

28. Brief History None

29. Special Problems, Reports Filed None

30. Remarks This with the Kaler and Coles properties deserve development consideration due to extent of possible low grade ores.

31. If property for sale: Price, terms and address to negotiate.

32. Signed.....

33. Use additional sheets if necessary.
