ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Index Russell-Howard, Wickenburg Dist Ag-Gold, Class II.

6/22/39 Minsfile R. General

Robert Russell & George Howard , Box 441, Wickenburg, called to tell of prospect which they have located 12 miles up Hassayampa River from Wickenburg and on north side, about 1 7/8 miles northwest of the White Mine and near a Goat Corral where Howard is camped.

Claim to have several veins 6" to 2' wide with very high grade free gold ore and much visible gold. Some assays run $50.00 per ton.

Need money for equipment and further development, can't do more with hand-steel and road should be improved.

See next page

5/7/40

RUSSELL-HOWARD MINE

Call from Bob Russell with samples.

To reach mine drive east from Wickenburg on road to Constellation and about 9 or 10 miles out the road forks at 2 cabins and then turn left and drive right down to river which can be crossed with a car, Road to White mine.

Russell is living at Champie Goat Ranch.

Billy Harkness saw this property and says that the vein strike NE-SW and has hanging wall of granite and foot-wall of porphyry.

Very rich in places with free gold showing. Vein is quartz with iron oxide and pyrite and galena.

Harkness got sample of lower grade ore which ran $7.00 per ton.

On side of hill near the southeast end men have driven in a tunnel which goes in 100' and gives back of 100'. Tunnel is 1000' from river up a steep trail and probably 400' above the river.

Shipped 49 tons which ran $69.00 per ton. Low grade ore runs $15.00 and 11% Pb.

Power line crosses the claims and there is water near-by. Have 10 claims of which 7 are recorded.

High grade ore in pockets and shoots carries $50 to $100 plus, per ton.

Many trenches on the claim and dyke of black rock which faults the vein.

Tunnel is on the syenite vein and quartz vein is up the hill.

Face of tunnel is in good ore and there is also a winze some 20' in from the portal. Vein 2' wide.

All vein may run 15.00 to 18.00 but many high grade bunches.

Gold is in quartz and not in iron oxide.

Owners are through, need compressor and money. Would sell or lease but prefer monthly pay to royalty.

Might interest Mottier or Walter Smith.
