ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Mr. Richards:

This letter is in reference to the claims you have located in T50N, R6E, N.M.B.L. and M.

Essex international, Inc. is a major electrical products manufacturing company, interested in the exploration for and development of mining properties. This property was noted during reconnaissance activities last summer. As a follow-up to this program and if you are interested, I would like to meet with you for discussions concerning these claims.

I plan a trip to Colorado during February. Please let me know if it is possible for us to meet.

Respectfully yours,

Dennis C. Temple

Napoleon Mines Inc. has located 136 claims at Cumberland Pass, north east of Ohio City. Contact will be made in order to determine the availability of this property.

Cyprus Mines Inc. has located 50 claims at Tomichi, north of Sargents. This property has been drilled on a grid and chalcopyrite was found in core chips at one of the holes.

Chaffee County

Bear Creek Mining Co. has located 42 claims south of Winfield, west of Buena Vista. This area was not seen.

Thomas F. Richards has located 30 claims at Calico Mountain, north of Garfield. Contact will be made in order to determine the availability of this property.

Daniel H. Weiser has located 130 claims on the east side of Mt. Antero, north west of Salida. No alteration of interest was seen on this mountain.

Saguache County

James B. Keighley has located 90 claims at Baughman Creek, north west of Del Norte. The alteration is weak compared with the other areas.

Many claims have been located in this county, with uranium as the objective.
