The following file is part of the Grover Heinrichs Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

NEVADA BUREAU OF MINES MAP 5

Iron Ore Occurrences in Nev
Robert Horton
Mackay School of Mines
U of N. 1962

PRODUCTION IN TONS OF IRON ORE CONTAINING 55% OR MORE Fe

- Prospect
- 1 - 1000
- 1000 - 10,000
- 10,000 - 100,000
- 100,000 - 1,000,000
- Over 1,000,000

NOTE: The placement of prospects, mines or districts in the generalized production categories above is based on figures published by the U.S. Bureau of Mines, U.S. Geological Survey, Nevada Bureau of Mines, technical magazines, and obtained from individual owners, tax records, car loading reports, field examinations and estimation. The groupings are generalized to avoid disclosure of exact production data. Reserves are not included.
