Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

WELLS LOCATED 8.5 MILES AWAY AT THE EAST
NAVAJO SPRING FIELDS

ARIZONA HELIUM

Arizona Helium has started processing helium gas at their Navajo, Arizona plant. No indication was given as to volume processed, however, the company has diligently worked on new reserves of raw gases to be processed in the new facility..
Taken from Arizona Natural Resource Services 5/15/69

Arizona Helium Corp, is undergoing reorganization. FTJ WR 4/24/70

Western Helium Corp. has taken over Arizona Helium Corp. plant at Navajo. FTJ Quarterly Report 1-13-71

Information from Mr. Allen of Oil & Gas Commission:

Air Reduction put a portable helium extraction plant at its Texas well at Teec Nos Pos in April 1968 and operated it until December 1969—not operated since.

Arizona Helium plant at Navajo, according to Pay Dirt, started operating in February, 1968, but a Phoenix Gazette article of 5/27/69 said Arizona Helium's first shipment from the plant had just been made. The plant closed before the end of 1969 and the company went into bankruptcy. Western Helium Corp. leased the plant in 1970 and purchased it at auction on July 15, 1971. Western ran the plant under lease for about four months. The Western Corporation reorganized and was due to resume operation May 8, 1972. F.P.K. 5/17/72

KAP WR 11/18/83: Ken Zarp, Valley National Bank trust department, requested information on Arizona Helium Corporation. He has a trust which includes some stock. He reported that according to the Arizona Oil and Gas Conservation Commission, the property and firm are not operating and their lease has expired.
