Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

FIELD ENGINEERS REPORT

Mine Armour Group

Date May 15, 1952

District Cerbat

Engineer Mark Gemmill

Subject: Present status

The property is still being prospected by the owners

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine Armour Group

Date May 28th, 1948.

District Cerbat-Stockton Hill

Engineer A.C.Nebeker

Subject: Sheck on rich find.

PA

The Armour Group is located about 22 miles ^{NW} from Kingman by way of Mineral Park and 30 Miles by way of Stockton Hill . A road does not go right up to the present workings.

This property is being worked by Chas. Toos and Chas Graham . Mr Toos has been working alone and the past year drove a 500 foot tunnel, to cut a vein which outcrops on the hill some 500 feet above. He has cut a vein which Mr Toos thinks is the Armour vein. At the point of intersection a nice highgrade bunch of copper-lead ore was found, but this is thinning out now and not so much shown.

Mr Toos now expects to raise on the vein which above is a 5 foot quartz vein which he claims carry \$35.00 per ton in gold-silver.

Mr Toos is not doing anything at the present, due to the fact his pardner is a very sick man and in the hospital.
