Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

CLAIMS EXTEND INTO SEC. 33 SE

BILBREY MINE (Lost Dutchman)

PINAL COUNTY

KAP WR 1/28/83: Crushed four samples from the "Lost Dutchman Claim"
for the U.S. Forest Service.

DEPARTMENT OF MINERAL RESOURCES

STATE OF ARIZONA

FIELD ENGINEERS REPORT

CONFIDENTIAL

Mine Bilbrey

Date February 1, 1983

District Superstition, Pinal County

Engineer Ken A. Phillips

Subject: Information

Owner: Michial Bilbrey, 8619 E. Sage Dr., Scottsdale, Arizona 85253

Other Possible Names: Lost Dutchman

Location: SW $\frac{1}{4}$ and SE $\frac{1}{4}$ Section 34, T2N R10E and SE $\frac{1}{4}$ Section 33, T2N R10E

Claims: Lost Dutchman (AMC #189723) and LD #2-7 (AMC #190371-76)

Hilton Cass, geologist-engineer with the U S. Forest Service reported he visited the property near Tortilla Peak (not far from Tortilla Flats). He explained that a very small quantity of free gold (a few colors) were found in a 2 inch iron stained stringer in a weathered zone in the "C" soil horizon. He collected 4 samples which he had crushed at ADMR. From one sample he recovered a few colors which totalled 0.35 mg gold.

The Forest Service plans to allow Mr. Bilbrey to pursue the occurrence with a small motorized gravity concentrator fed by a hand shovel.
