ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Feb. 18 - 1958

Mr Frank P Knight

Dear Sir,

I dont know where you got my name, I dont remember ever meeting you.

I know Mr A. L. Flagg is and old friend, and has been over some property I had back in 1939 or 1940 and several other mining men.

the only property which produced any ore was the Odell no. 1 there I was 60 tons from there sold here at Wickenburg which averaged \$35.00 per ton.

But this Daniel Buoy you asked about, I never tried to develop.

I now have a 1/2 interest in 3 claims, copper silver and gold which have quite a lot of work done on the no. 1 claim

And a number of geologist have gone over, & made written reports, and the last one went over the 2nd time and made a detailed working chart, that was Gilmore of Santa Fe N.M.

A man by the name of Spear had this done, But defaulted ~~of~~ on the work and I had to close the Lease.

this is the only mining claims which I own now.

If you are interested in something worth while let me hear from you soon.

I cannot figure all this out as Mr Spear wants it again also 2 other men have contacted me recently, But I am not under obligation to any one.

will show you or any one over the property provided you are not a promoter wanting to

tie me up for as long as
I you can, without putting any
lettuce on the Barrel head.

now why not come out
and talk things over, I will
not twist your arm.

I am plain honest and
truthful:

Respectfully yours

Harren R Godbehere

Mr. Warren R. Godbehere
Box 1014
Wickenburg, Arizona

Dear Mr. Godbehere:

Thank you for your letter of February 18th in answer to our request for up-to-date information on your Daniel Buoy and Odal # 1 mines.

Our reason for writing you was to make sure you still own these properties and to get any additional information which you might like to have on file with us. Our last reports from you were dated in 1941.

We know of no one who is at present interested in your properties and our service is confined to maintaining files of properties such as yours that are for sale for a prospective buyer to look at.

Yours very truly,

FRANK P. KNIGHT,
Director

- 12. Mill Supt.
- 13. Men Employed
- 18. Operations: Present

Odell Mine
 Black Rock.
 Navajo Co.
 W. R. Godbehere

- Date 5-24-41
- 2. Location 18 mi. N.E. from Wickenburg Ariz. Old Gold Run, Monte-Cristo road.
- 6. Address (Owner) 11810th ave. Phoenix, Ariz.
- 8. Address (Operator)
- 9A. President, Operating Co.
- 14. Principal Minerals Gold & Silver
- 15. Production Rate
- 16. Mill: Type & Cap.
- 17. Power: Amt. & Type

- 19. Operations: Planned
- 20. Number Claims, Title, etc.

3 unpatented claims
 all recorded and Oct. to July 1st

- 21. Description: Topography & Geography
- 22. Mine Workings: Amt. & Condition

On Amazon wash workings about 100 ft from and above wash bed. pretty steep & rugged. 1 shaft about 10 ft. Open cut 40 ft by 8 ft deep.

(over)

23. Geology & Mineralization

quartzite & schist with stannite
on contact of diorite.

24. Ore: Positive & Probable, Ore Dumps, Tailings

average about 14 in, width
one and 1/2 mi, length

24A. Dimensions and Value of Ore body

values average about \$50.00
a ton

25. Mine, Mill Equipment & Flow-Sheet

26. Road Conditions, Route

last 2 and 1/2 mi washed out in
several places, can be repaired at
a small cost.

27. Water Supply

sufficient for domestic uses
I believe sufficient amt can be
developed to operate a 10 ton mill.

28. Brief History

about 11 ton of ore sold to ore market
at Hickenburg.

29. Special Problems, Reports Filed

30. Remarks

31. If property for sale: Price, terms and address to negotiate.

will sell all 3 claims
before July 1st for \$500.00 or lease on 10% net
smelter returns

32. Signature

H. R. Goodhere.

33. Use additional sheets if necessary.
