Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
OWNERS MINE REPORT

118-16

Date. July 14th, 1939.

Mine BOOKSHIRE GROUP OF CLAIMS

District VERDE MINING DISTRICT

Location About half way between the
COPPER CHIEF mine and the
Phelps Dodge glory-hole.

Former name Brookshire Group

Owner JOE LARSON,
P.O.B. 144,
Operator (Tel: 162)
Jerome, Arizona.

Address

Address

President

Gen. Mgr.

Mine Supt.

Mill Supt.

Principal Metals Gold, silver, copper.

Men Employed

Production Rate

Mill: Type & Cap.

Power: Amt. & Type

Operations: Present

Operations Planned Clean out old workings and take out ore.

Number Claims, Title, etc. 12 patented claims. Title clear.

Description: Topog. & Geog. Rugged country.

Mine Workings: Amt. & Condition 300 foot incline shaft following Brookshire vein,
and one perpendicular shaft 200 feet deep. Tunnel
1800 feet in length, heading for Brookshire vein.
Workings partly caved.

Geology & Mineralization Jasper outcrops and quartz achist. Vein outcrops on surface. Ore taken from dump samples:

Cu	Ag	Au	Insol
7.7	10.0	.19	53.0

Ore: Positive & Probable, Ore Dumps, Tailings

Mine, Mill Equipment & Flow Sheet

Road Conditions, Route A weeks work should put the road in good shape, (with a few men).

Water Supply Ample for mining

Brief History The work done on this group was done about 40 years ago, by the TREADWELL MINING COMPANY. The formation is rather hard. Am of opinion that the underground workings are not in bad shape. Formation- mostly quartz porphyry and jasper. Treadwell Mining Company made several shipments of ore from this group.

This property was acquired, in later years, by the Green Monster Mining Company, who never did any work on it.

Remarks There is an 84 foot shaft on Missouri claim. Dump samples:

Cu	Ag	Au	Insol
2.4	.5	.20	78.6

The Amazon claim has a good showing also. Both of these claims are on the main VERDE FAULT.

If property for sale: Price, terms and address to negotiate. For sale, or, lease and bond.

Signed

Use additional sheets if necessary.
