ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

BUCKHORN MINE

PIMA COUNTY

NJN WR 5/10/85: Perry Fletcher reported that he and his dad have the F&R #1-3 claims on what they call the depression vein just east of the Wisconsin Mine (Buckhorn Mine - file) Pima County. They have made underground maps of 2 levels of old workings on the claims.

13 November 1941

Mr. Richard Smith,
175 E. 12th Street,
Tucson, Arizona.

My dear Mr. Smith:

I am enclosing herewith a copy of mine owners Report covering the BUCKHORN MINE in the Greaterville Mining District, Santa Cruz County, Arizona, which you have filed with this department.

I shall be glad to submit a copy of this report to anyone making inquiry for a property such as your, and I trust that we may be able to be helpful to you.

Yours very truly,

Charles F. Willis
Chairman, Board of Governors

CFW-jrf
encl.

7 November 1941

Mr. Richard Smith,
175 East 12th Street,
Tucson, Arizona.

My dear Mr. Smith:

With further reference to mine owners report which you sent to us covering your BUCKHORN MINE, I beg to advise that you do not give me the location of this mine - nor the mining district and county in which it is located. I should also appreciate your giving me directions for reaching the property.

It is necessary to have this information before I can make a record of it and present to prospective buyers.

The more information I have to submit, the better chance there is of getting prospective purchasers to examine the property.

Thanking you in advance, and with best wishes,
I am

Yours very truly,

Charles F. Willis
Chairman, Board of Governors

CFW-jrf

October 24, 1941

Mr. Richard Smith
175 E. 12th Street
Tucson, Arizona

Dear Mr. Smith:

Many thanks for your description of the Buckhorn Mine. It will be placed in our files and any inquiries regarding it will be referred directly to you.

If you have any records or assays showing the value of the outcrop or the value of the ore shipped, it would be worthwhile having this added to the Mine Owner's Report submitted.

Very truly yours,

J. S. Coupal

MINE OWNER'S REPORT

Date: October 11, 1941

1. Mine: BUCKHORN MINE
2. Location: 25 or 30 miles south of Tucson, Arizona.
3. Mining District & County: Greaterville Mining District, Santa Cruz County.
4. Former Name: PIMA
5. Owners: Richard Smith, 175 E. 12th Street, Tucson, Arizona, and C. J. Hill
6. Address (Owner):
7. Operator: None
8. Address (Operator):
9. President, Owning Co: No president.
- 9A. President, Operating Co:
10. Gen. Mgr: None.
14. Principal Minerals: Lead & Silver.
11. Mine Supt: None.
15. Production Rate:
12. Mill Supt: None.
16. Mill - Type & Cap:
13. Men Employed: None.
17. Power - Amt. & Type:
18. Operations - Present: None.
19. Operations - Planned: None at present.
20. Number Claims, Title, etc: One or as many as you would want - location is in virgin ground.
21. Description - Topography & Geography:
22. Mine Workings - Amt. & Condition: Development work only.

23. Geology & Mineralization: Porphyry Granite.

DEPARTMENT OF MINERAL RESOURCES
State of Arizona

MB-71

24. Ore - Positive & Probable, Ore Dumps, Tailings: None to speak of.

Date: October 11, 1941

24A. Dimensions and Value of Ore body: Vein about 4 ft. wide, but no high grade in sight - only what has been taken out in prospect hole.

A ledge 12 or 15 ft. wide at bottom of hill where it crosses the canyon carries milling grade galena.

25. Mine, Mill Equipment & Flow Sheet:

26. Road Conditions, Route: Good, except 2 1/2 miles.

Turn off at Continental - mine about 15 miles from Continental. Property is located about 2 miles off the road in Box Canyon - 3/4 mile is rough, but not hard to get to.

27. Water Supply: None close by.

28. Brief History: Virgin country.

29. Special Problems, Reports Filed: None.

30. Remarks: Would only consider very reliable party to take over the mine. Due to the high grade of ore taken out it has possibilities of being a good property.

31. If property for sale - Price, terms and address to negotiate: For sale - \$3,00.00. Write owners for terms.

32. Signature: (Signed) RICHARD SMITH,
175 E. 12th Street,
Tucson, Arizona.

19. Operations - Planned: None at present.

30. Remarks: Would only consider very reliable party to take over the mine. Due to the high grade of ore taken out it has possibilities of being a good property.

31. If property for sale - Price, terms and address to negotiate: For sale - \$3,00.00. Write owners for terms.

21. Description - Topography & Geography:

32. Signature: (Signed) RICHARD SMITH,
175 E. 12th Street,
Tucson, Arizona.

22. Mine Workings - Amt. & Condition: Development work only.

Dear Sir

Just need your letter concerning the Buck Horn
Mine

It is located about 25 or 30 miles south of
Tucson in the Gerdville District

In Santa Cruz County

To reach the property turn off at Continental
and it is located about two miles off the
road in Box Canyon

About 3-4 of miles is pretty pretty rough

But it is not hard to get to

High grade ore has been taken out in
four different places

A ledge 12 or 15 ft wide at the bottom
of the hill where it crosses the Canyon
Carrie's Milling grade galena

I have not sampled this ledge. But my
partner who is a very reliable man
informs me that the ledge is all
milling grade

Not much work has been done on the property

due to the fact that I am not financially
or physically able to perform the work
I will price the property very reasonably
\$2,500 cash will get the property

A prospect south of us sold for \$25,000
But I can't work it just at present and
I am putting a give away price on it
I have good samples of the ore here in
Tucson and quite a lot of the mine
The day out all the high grade that was in
sight

But the vein is about 4 ft wide ^{or more} 3-1-2
I would think the mine is about 15 miles
from Continental

and thinking for the interest you have
taken in my property

I Beg to be your very Prof
Richard Smith

175. C 12th. St.
Tucson, Arizona.

P. S.

I would not care to show the property to any
one only reliable people
and people who have a reputation of doing
business.

Dept. of Mineral Resources

Phoenix Arizona

Dear Sirs since I reported some
Ore property to you for ~~sale~~ sale
I have had a great many inquiries
about my property.
And think possible I will make a
deal on it.

I have a good lead and silver
prospect for sale on most any
kind of terms.

But only reliable people would be
considered. As I have some very fine
specimens which are only surface
showing and only the location work
has been done on the property.
I should not consider no one only a very
reliable person.

I have samples here in Tucson
and thinking you I try to be getting back
Richard Smith

Buck Horn

Sledge of millery grade laid out
about 12 ft wide. crosses the Canyon
High grade or was taken out on this
is hairy

About 200 ft up the hill crosscut
work was done and high grade track
or taken out

30 further up the hill or was
shored up and high grade taken out

About 100 ft further up or was
shored up again
High grade or has been shored up
in four places

Will sell for \$3,000 cash
But will not consider any one
or Company who is not thoroughly
reliable and wish to do business
At the Bond and lease the
property

Richard Smith

Tucson Arizona

P S

My Mica history is
listed with you
and thanks for your
Cooperation

I have had several inquiries
about Mica

~~Lead - Silver -~~

~~418~~ 71

One claim - located in virgin area;
others can be taken up. Opened up
by location hole - showing a 4 foot
vein of mill grade ore. Ledge shows
12 to 15 feet wide where cut by canyon
carries some galena. A granite
porphyry country rock. About 15 miles
from high-way of which $\frac{3}{4}$ mile rough
but passable. Price \$3000 on terms.
