ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Mr. Coupal:

Would you mind sending me a copy of whatever report and also a copy of any map or drawing, of my Bull Hill group of mines, located some 10 miles east from Wickenburg. Seems as though I had filed with your Department a report on that group and also some drawings.

Very truly,

Steve Loncar

3 September 1941

Mr. Steve Loncar,
Wickenburg,
Arizona.

My dear Mr. Loncar:

I am enclosing herewith a copy of the report filed with this department covering the BULL HILL MINE in the Blue Tons Mining District. No map or drawing was filed with this report.

However, there was a sketch filed with the report on your George Washington property, and it is evidently this report that you had in mind.

Trusting that the copy enclosed will be helpful to you, and with best wishes, I am

Yours very truly,

Charles F. Willis
Chairman, Board of Governors

CFW-jrf

February 18, 1944

Memorandum

To: George Ballam

From: B. W. Brown

Subject: Loncar Mine

I found that the Loncar mine often goes by the name "Bull Hill". That is what Steve Loncar calls it too, I believe. It is a good name, too. I understand that Steve's financial backers stuck a pin in his balloon and the mine is once more closed down

Bill

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine **BULL HILL**
District **BLACK HILLS**
Former name **NONE**
Owner **Steve Loncar,**
Operator **same**
President
Mine Supt.
Principal Metals **Little Copper**
Production Rate **none**
Power: Amt. & Type **hand**
Operations: Present **tunneling**

Date **Jan 8th, 1943.**
Engineer **A. C. Nebeker**
Location **Prescott, Ariz.**
Address **Wickenburg, Ariz.,**
Address
Gen. Mgr.
Mill Supt.
Men Employed **one**
Mill: Type & Cap.

Operations Planned **tunneling and more tunneling**

Number Claims, Title, etc. **Several held by location and work**

Description: Topog. & Geog. **Located 14 miles out from Wickenburg on the Constellation road.**

Mine Workings: Amt. & Condition **One tunnel 350 feet in good condition,**

One tunnel with some cross cutting and two short winzes total amount of work approximately 700 feet. On hill above tunnel a short shaft in a lightly iron colored granite.

Geology & Mineralization Granite and small amount of mineralization. In the one tunnel there shows a seam of copper about $\frac{1}{2}$ inch thick and 10 feet long. On the North side of the mountain Mr Loncar reports he has a good showing of manganese ore which would run about 14%. It did not sound favorable enough to be worth climbing mountain.

Ore: Positive & Probable, Ore Dumps, Tailings

None

Mine, Mill Equipment & Flow Sheet

Road Conditions, Route good

Water Supply water from well in wash

Brief History none, except that Steve wanted to work some where, where he would not have to buy out others, so he picked BULL HILL. He has worked here for some thirty years.

Special Problems, Reports Filed

Remarks

If property for sale: Price, terms and address to negotiate.
