Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

BUMBLE BEE

YAVAPAI

~~Don Schalton, realty appraise5 of Prescott, said Bumble Bee wasup for sale. FTJ WR 2/22/74~~

Don Schalton, realty appraise5 of Prescott, said Bumble Bee wasup for sale. FTJ WR 2/22/74

Mr. Dale Fiscus, Globe, came in to learn where magnetite could be sold. He was given the names and addresses of three firms who might be interested. He said he had leased his 60 acres of placer claims 3/4 of a miles south of Bumble Bee to Mountain States Mortgage Group, James Batson, Manager, 895 S. Colorado Blvd., Denver and because there is considerable black sand involved, they want a market for it. It was suggested that there could be some fine Au in the black sand and thatit perhaps should be amalgamated before shipping to an iron furnace. GW WR 2-20-74

Mr. Dale Fiscus, Globe, came in to say the Denver Mortgage Co. had pulled out of his placer near Bumble Bee. He was given the names of a couple of three people who appear interested in placer mining. GW WR 6-25-74

RRB WR 5/29/87: Roger Ouellette, Bumble Bee Mine (file) Bradshaw Industries, 277-7746 reports that they now have a 400 tpd ball mill and sluices in operation. He said that they need someone to refine the concentrates and that they had tried Dr. Brown at ASU and Fred Finnell but got unsatisfactory results. I suggested Silver Systems but to get the concentrates assayed by a resginstered assayer first to avoid any misunderstanding.

DEPARTMENT OF MINERAL RESOURCES
State of Arizona
MINE OWNER'S REPORT

Date June 6 - 47

1. Mine: Bumble Bee

2. Location: Sec 29 Twp 9 1/2 Range 2-C Nearest Town Bumble Bee

Distance one mile Direction South Road Condition good

3. Mining District & County: Blackcanyon & Yavapai County

4. Former Name of Mine: none 4733-5810, 1st (mineral rights)

5. Owner: Dale, Fancis, Alice & Harold Fancis

Address: Bumble Bee Arizona

6. Operator:

Address:

7. Principal Minerals: gold

8. Number of Claims: Lode Placer 6

Patented Unpatented

9. Type of Surrounding Terrain: There are high bars, on both sides

of Blackcanyon river all 6 claims are on the

canyon.

10. Geology & Mineralization:

11. Dimension & Value ~~lode~~ placer Mr. Gordon Moore 9521 Santa

Monica Blvd, Beverly Hills Calif. He tested 500

per yard on our ground and his ground below our

six claims, we have plenty water because Bumble Bee

creek runs in to our claims, also runs the year around

we have approximately 1,000,000 yards

12. Ore "Blocked Out" or "In Sight" :

Ore Probable:

13. Mine Workings—Amount and Condition:

No.	Feet	Condition
Shafts.....		
Raises.....		
Tunnels.....		
Crosscuts.....		
Stopes.....		

14. Water Supply: We have plenty of water to operate any kind of a washing plant

15. Brief History: There were plenty of hand work and many years ago all up and down our claims you see there are High Bars on both sides which are very good coarse gold you can check in the bed of mines and it will tell you all about America gulch and Mex gulch which empty in to our claims which comes down Bumble Bee Quartz

16. Signature: Dale Liscus

17. If Property for Sale, List Approximate Price and Terms: For 6 claims we will take \$5000 and we can come to some kind of terms

 Book 147 of Mines Page 212

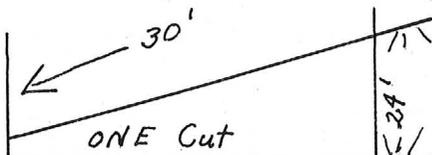

21. Description: Topography & Geography

3 cuts begin from slope of hill 3' wide
 2nd 4' wide, 12' long x 10' deepest place
 3rd 3' wide, 12' long x 4' deepest place

See above

22. Mine Workings: Amt. & Condition

23. Geology & Mineralization

24. Ore: Positive & Probable, Ore Dumps, Tailings

24-A Vein Width, Length, Value, etc.

25. Mine, Mill Equipment & Flow Sheet

26. Road Conditions, Route Badly tore up

27. Water Supply Water flows on bed rock in the chanel in the dry season. 6 months out of 12 months, lots of water.

28. Brief History Not very much to report
6 claims in a group. There's a small strip of ground separated the 7th claim from the group.

29. Special Problems, Reports Filed I need help. My trouble is I am not able financially to get the ore out.

30. Remarks There is placer ground on 3 lode claims. At the present time water is running on bed rock in the channel, of the canyon. Dig down 3 to 4 feet for water.

31. If property for sale: Price, terms and address to negotiate. I will sell out for the price of the labor I've done at the regular rate of wages on scale of wages for that class of work.

32. Signed..... M. S. Mitchum

33. Use additional sheets if necessary.
