Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

VERBAL INFORMATION SUMMARY

Information from: Carl Anderson

Date: June 12, 1989

Address: 9355 N. 91st Street, Unit 220
Scottsdale, Arizona 85258
Phone - 391-9412

Engineer: Ken Phillips

Mine Name: Cochise Marble

County: Cochise

MILS number: 722

Operational Status: Explored prospect

Summary of information received:

Mr. Anderson has been prospecting this patented property. It is currently held by an estate.

He exhibited specimens of faintly banded competent, fine-grained, gray marble as well as a number of less competent samples. The limestone-marble deposit is extensively exposed along Whitetail Creek.

It was suggested he examine some commercially available marble tile as examples. Further, it was suggested he produce some polished samples of the material from the deposit.

Although patented, he could not find any indication of past production.

June 12, 1989

COCHISE WHITE MARBLE PLACER

COCHISE COUNTY
CALIFORNIA DIST.

Mr. E. M. Cavallo, Box 1119, Douglas, Arizona

Mr. Cavallo also stated that he had purchased a patented placer claim (Cochise White Marble Placer) containing 143 acres from a private party, and that this claim was located in T16S, R30E, in the California Mining District, 1 mile NW of the Hilltop Mine. Mr. Cavallo thinks it has possibilities for a gold-silver placer operation.

Mr. Cavallo stated that he would like to have some information on this property. Field Engineer said that he had no information on this in the Tucson office file, but promised to check with the Phoenix office in case they had any information on it.

Mr. Cavallo asked for information on placer mining equipment. Engineer said he would send him any such information that we have.

Taken from Douglas Conference Report - Axel L. Johnson - 3-16-61

DEPARTMENT OF MINERAL RESOURCES

STATE OF ARIZONA

FIELD ENGINEERS REPORT

Mine * Cochise White Marble Placer

Date March 16, 1961

District California Mining District, Cochise County Engineer Axel L. Johnson

Subject: Information from E.M. Cavallo

References: Bull. #380 - "Contributions to Economic Geology, 1908" by U.S. Geological Survey on page 310.

Location: SW $\frac{1}{4}$ of the SW $\frac{1}{4}$, Sec. 21 and W $\frac{1}{2}$ of the E $\frac{1}{2}$ Sec. 28, T. 16 S., R. 30 E. (unsurveyed) - in Whitetail Canyon, about 1 mile NW of the Hilltop Mine.

Number of Claims: 1 patented placer claim, consisting of 143.813 acres, patented on April 25, 1912. Mineral Survey No. 2591.

Owner: E.M. Cavallo, Box 1119, Douglas, Ariz. Mr. Cavallo purchased the claim from a private party.

Principal Minerals: White marble, gold, silver, lead & copper.

Present Activity: Idle

Past History: Mr. Cavallo reports that the property was worked in 1900, or shortly thereafter.

Old Mine Workings: Mr. Cavallo reports 1 adit, 140 ft. long.

Proposed Plans: Mr. Cavallo thinks there is a possibility of gold and silver placering on the property and asked for placer mining information. This was supplied in my letter to him under date of March 23, 1961.
