Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

CRAIG CLAIMS

Mohave County
Cedar Valley District

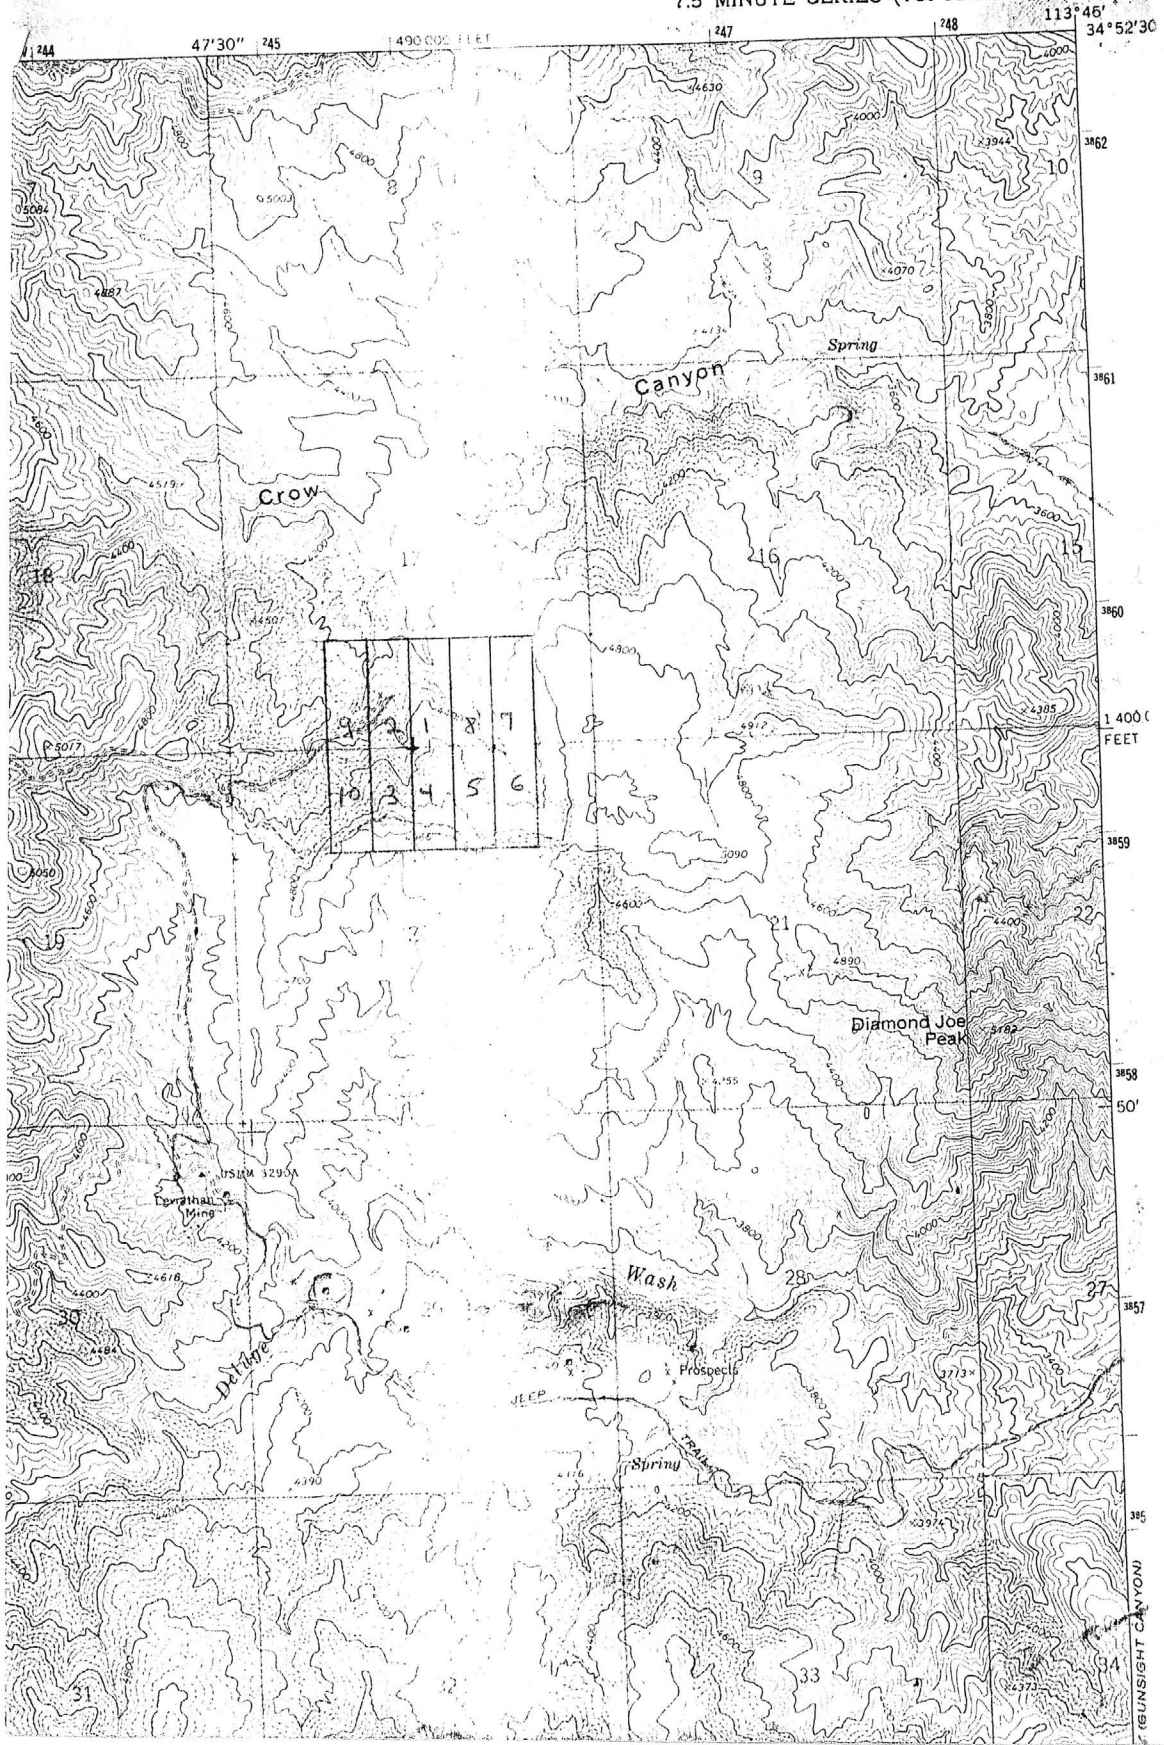

NW $\frac{1}{4}$ Sec. 20, T17N, R14W

KAP WR 4/30/80: In the company of Mike Greeley, traveled to Ralph Baglino's Craig Claims located in NW $\frac{1}{4}$ Sec 20, T17N, R14W, Cedar Valley District, Mohave County. A separate report will be written.

KAP WR 6/6/80: Ralph Baglino reported that his claims (the CRAIG CLAIMS #1-10, Mohave County) were previously staked by Towne Mines as the HARPOON GROUP and the claims are still valid. He found out that the group is leased to Gulf Oil.

LOCATION NOTICE
(Lode)

NOTICE IS HEREBY GIVEN that the Craig #3 lode mining claim has been located by Ralph Baglino, whose address is 7749 N. 40th. Dr. Phoenix, Arizona 85021.

The general course of this claim is N-S-E-W and it is situated in the Diamond Joe Mining District, Mohave County, Arizona.

This claim is 1500 feet in length and 600 feet in width. The claim runs from the location monument on which this notice is posted 1500 feet in a Southerly direction to the South end line and 600 feet in a Westerly direction to the West end line. The claim boundaries are marked by six monuments, one at each corner and one at the center of each end line of the claim. The location monument on which this notice is posted is situated within Section 20, T. 17N, R. 14W, G&SR11, Arizona, and this claim encompasses portions of the following quarter section(s), Section(s), Township(s), and Range(s):

North West Corner of Section 20 17N 14W

G&SR11, Arizona.

The locality of this claim with reference to some natural object or permanent monument and additional information (if any) concerning its locality are as follows:

Its North East corner is at $\frac{1}{4}$ section Marker $\frac{1}{2}$ $\frac{S17}{S20}$

DATED AND POSTED on the ground this 5 day of February, 19 80.

LOCATOR:

A claim map must be recorded. See page 77.

LOCATION NOTICE
(Lode)

NOTICE IS HEREBY GIVEN that the Craig #4 lode mining claim has been located by Ralph Baglino, whose address is 7749 N. 40th. Dr. Phoenix, Arizona 85021.

The general course of this claim is N-S-E-W and it is situated in the Diamond Joe Mining District, Mohave County, Arizona.

This claim is 1500 feet in length and 600 feet in width. The claim runs from the location monument on which this notice is posted 1500 feet in a Southerly direction to the South end line and 600 feet in a Easterly direction to the East end line. The claim boundaries are marked by six monuments, one at each corner and one at the center of each end line of the claim. The location monument on which this notice is posted is situated within Section 20, T. 17N, R. 14W, G&SR11, Arizona, and this claim encompasses portions of the following quarter section(s), Section(s), Township(s), and Range(s):

North East corner of section 20 17N 14W

G&SR11, Arizona.

The locality of this claim with reference to some natural object or permanent monument and additional information (if any) concerning its locality are as follows:

Its North West corner is at $\frac{1}{4}$ section marker $\frac{1}{4} \frac{S17}{S20}$

DATED AND POSTED on the ground this 5 day of February, 1980.

LOCATOR:

A claim map must be recorded. See page 77.

LOCATION NOTICE
(Lode)

NOTICE IS HEREBY GIVEN that the Craig #8 lode mining claim has been located by Ralph Baglino, whose address is 7749 N. 40th. Dr. Phoenix, Arizona 85021.

The general course of this claim is N-S-W-E and it is situated in the Diamond Joe Mining District, Mohave County, Arizona.

This claim is 1500 feet in length and 600 feet in width. The claim runs from the location monument on which this notice is posted 1500 feet in a Northerly direction to the North end line and 600 feet in a Westerly direction to the West end line. The claim boundaries are marked by six monuments, one at each corner and one at the center of each end line of the claim. The location monument on which this notice is posted is situated within Section 17, T. 17N, R. 14W, G&SRII, Arizona, and this claim encompasses portions of the following quarter section(s), Section(s), Township(s), and Range(s):

South East corner Section 17 17N 14W

G&SRII, Arizona.

The locality of this claim with reference to some natural object or permanent monument and additional information (if any) concerning its locality are as follows:

Its South East corner marker and monument are 1200 ft. from 1/4 section marker 1/4 S17
1/4 S20

DATED AND POSTED on the ground this 5 day of February,
19 80.

LOCATOR:

DEPARTMENT OF MINERAL RESOURCES

STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine Unknown Date January 23, 1980
District Cedar Valley (Mohave County) Engineer Clifford J. Hicks
Subject: Field Examination of Mine in the NW $\frac{1}{4}$ Sec. 20, T17N, R14W
Diamond Joe Peak 7 $\frac{1}{2}$ ' Quadrangle

In the company of Ralph Baglino, 7749 N. 40th Drive, Phoenix 85021, phone 939-3575, and his friend Marlin Grasser (has no interest in the property), P.O. Box 1350, Palmer, Alaska 99645, phone (907) 745-3772, drove 7.1 miles north of Wickieup, Arizona, on U.S. Highway 93, turned west on a county unsurfaced road and proceeded 14.4 miles to a mine whose adit portal is about 100 ft west of the located U.S. General Land Office (1915) 1/4 corner of Section 17 and 20, T17N, R14W, Mohave County.

The property is in an area of high relief in the Hualapai Mountains. Vegetation is manzanita, other desert shrubs and cactus. A four-wheel drive vehicle is necessary.

The 4'X5' mine adit enters the mountainside at the 4440' contour line and offers easy access to an estimated 1000' of drifting and cross-cutting, at least two raises (30'), stoping, an inclined air shaft to surface and an underground ore bin of about 10 ton capacity. There is a 6'X6' sump adjacent to the ore bin. The water level is 10' down. Track haulage was used for material handling with probable hand tramping. Some 20#(?) track still in place.

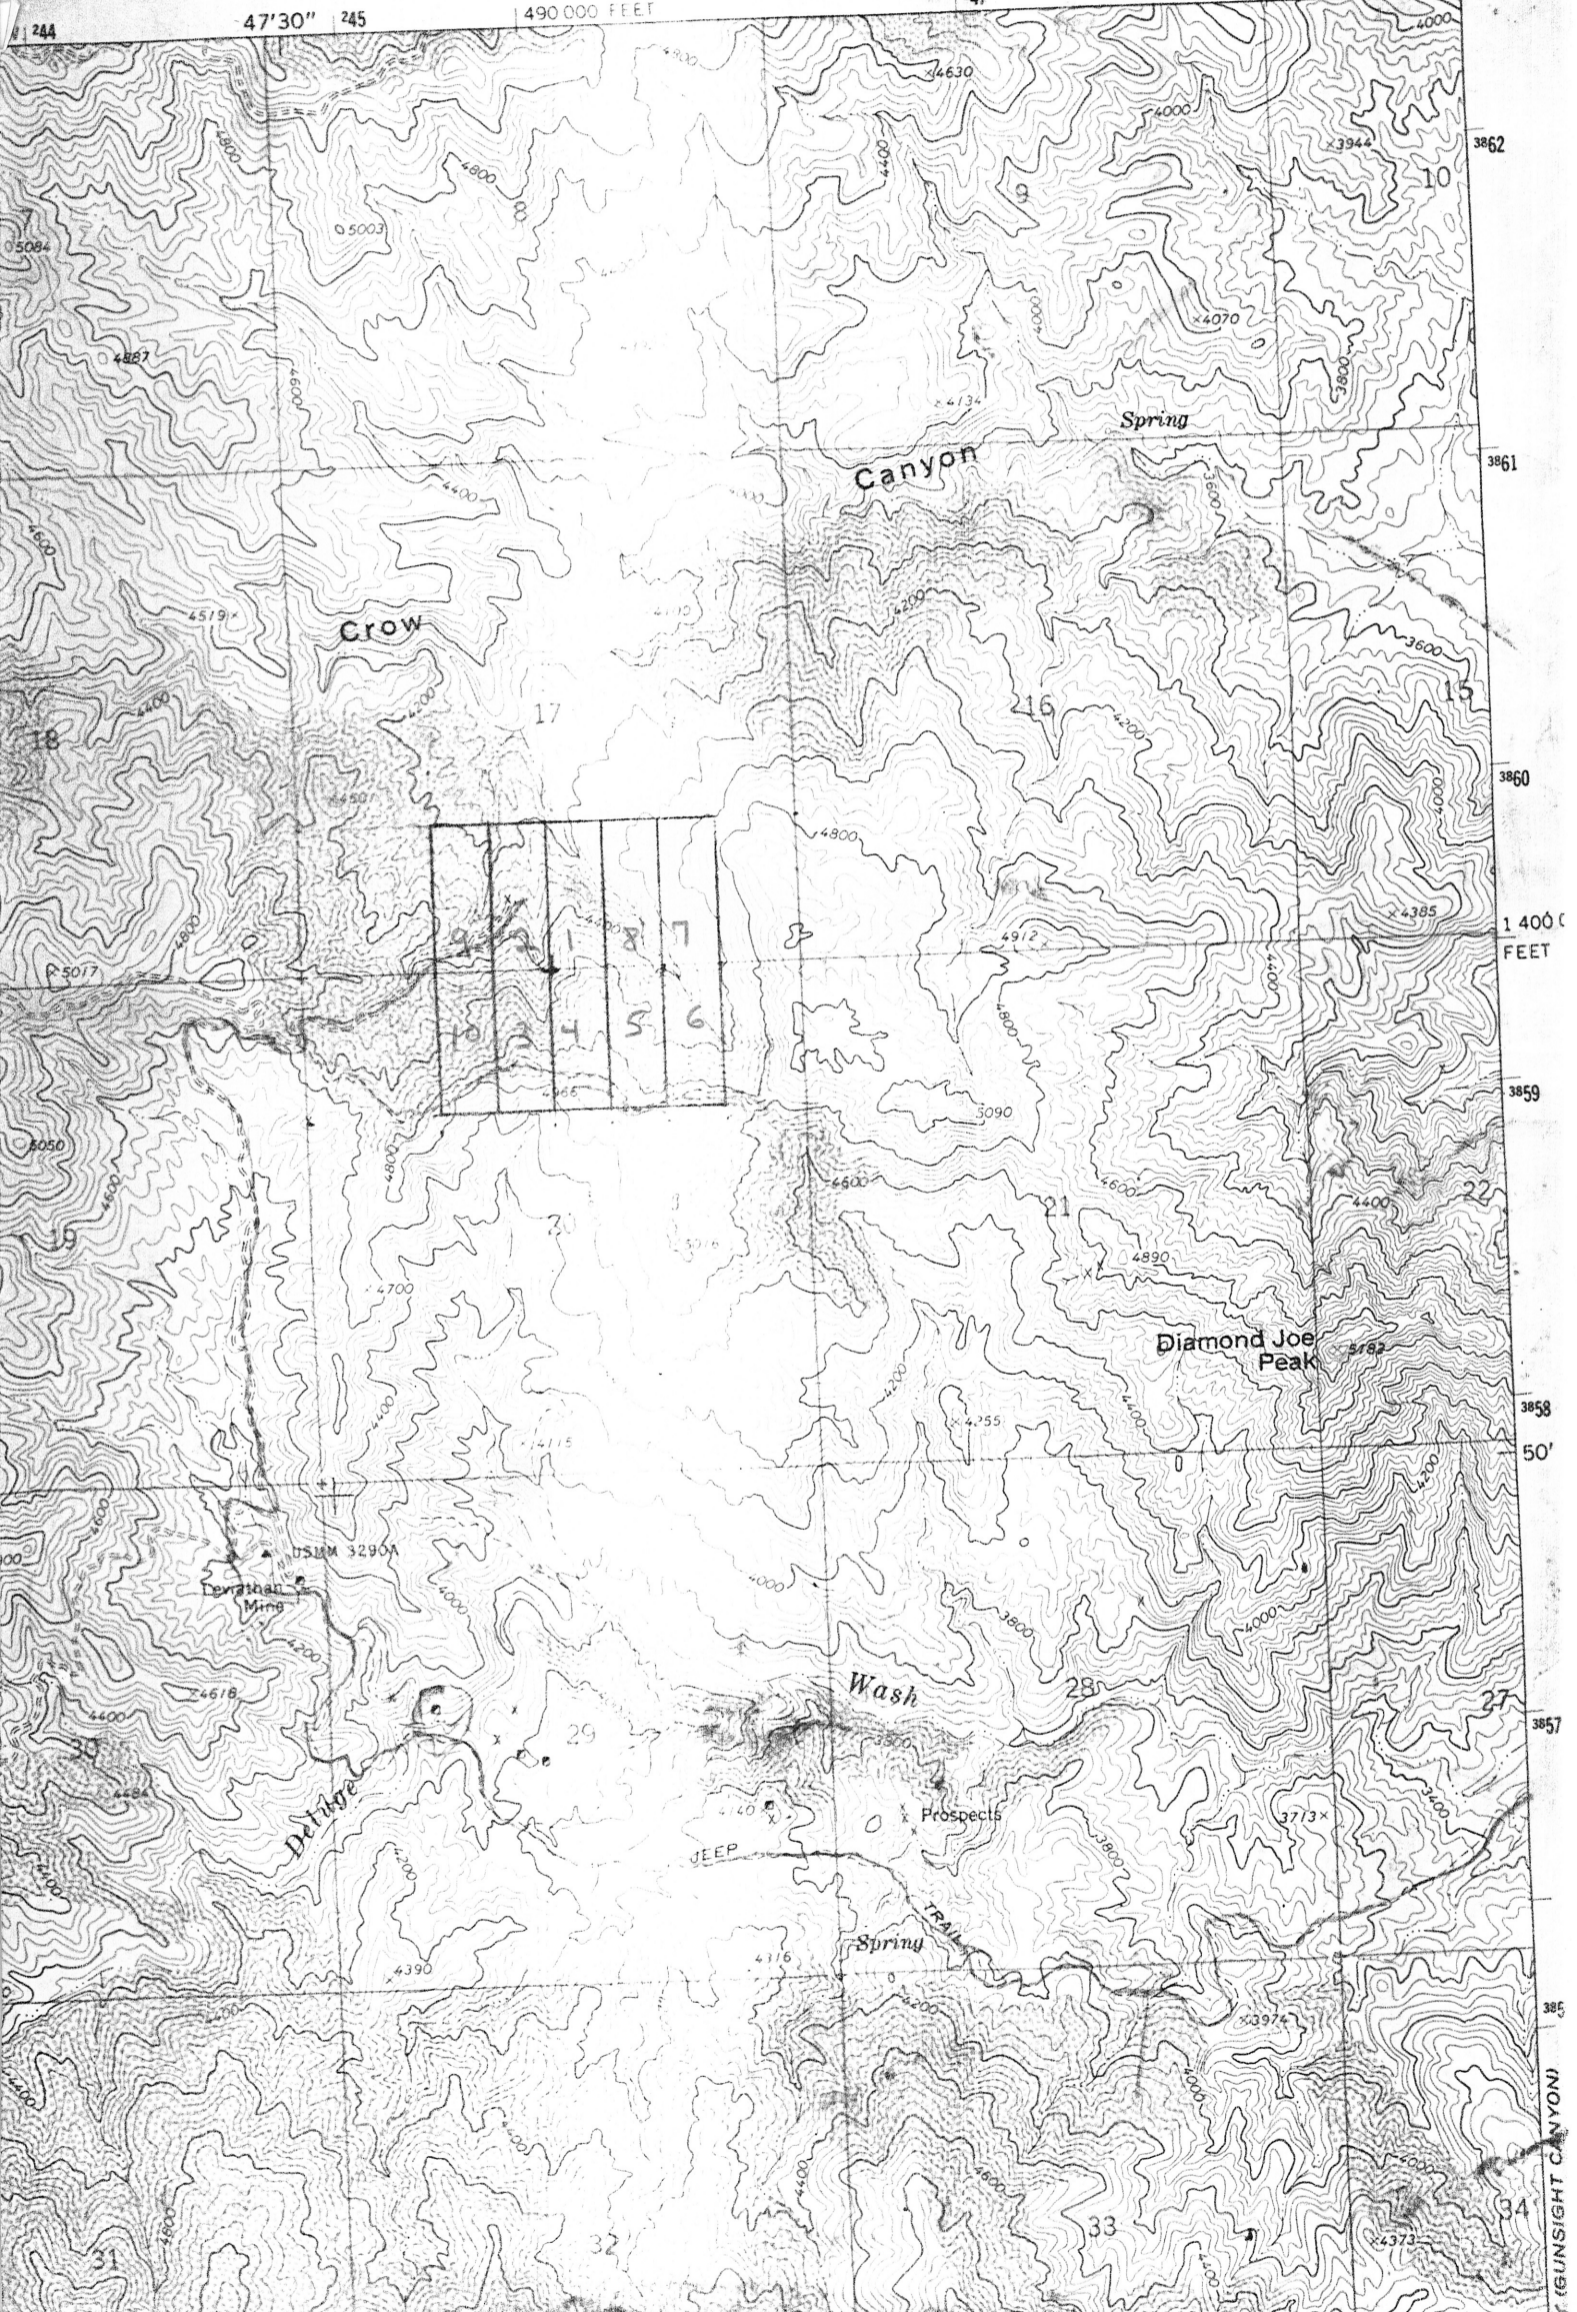

The country rock appears to be an altered but quite competent granite, exhibiting some gneissose structure. Mineralization occurs in NE-SW striking, vertical quartz veins, joint filling with some dissemination in the wall rock. Muscovite mica concentrations occur with molybdenite (principle ore mineral) and minor chalcopyrite. Several samples were taken to be assayed for Cu, Mo, Au and Ag.

A mill site was located 1/4 mile down slope from the mine. Nothing remains but concrete foundations and tanks. A few tons of mill feed remain. The stockpile was grab sampled.

Mr. Baglino improperly located four claims (all on one location notice and in the wrong section) on the property. Proper procedures have been subsequently discussed and he will relocate a minimum of 12 claims and perhaps more later, to form a property position that might interest a major mining company. Additionally it was recommended that a reasonable underground and surface (including dumps) sampling program be conducted.
