ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

CLAIMS EXTEND INTO SEC 19

Mrs. Smith made me acquainted with Charles Dudley at his rock shop who has 56 copper claims about 12 miles southwest of Payson that he would like to dispose of. GW WR 2/25/72

Went to Payson and stopped at Charles Dudley's rock shop. Mr. Dudley said Raymond LeRoy Sr. and Jr. of California were planning some core drilling in the immediate vicinity of the old Ox Bow mine. He also had heard that Tonto Basin Mining and Milling Company were investigating another fluorspar deposit on the west side of the Mazatzal Mountains near Horseshoe Lake. GW WR 10/26/72

In Payson visited with Mr. Charles Dudley who said there was no exploration activity presently in the area but that a Mr. Kilgore, Socorro, New Mexico had sampled his copper "dike" west of town for a Los Angeles concern who was experimenting on some sort of new Cu leaching method.
