ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

ELLISON PROPERTY

GILA COUNTY

NJN WR 4/17/87: Dan Maxwell (c) reported that on behalf of Arizona Flux Mines, Inc (c) they have just signed a lease agreement on the Ellison, Gila County. This property contains quartz veins in ortho-quartzite which contains disseminated pyrite, now hematite, which can contain significant precious metal credit. They plan to do some trenching and drilling there soon to determine the extent of the precious metal mineralization to see if it would make a profitable silica flux.

NJN WR 11/6/87: Rick Dutka, a consultant with Ovaltecs Consultants Inc of Ontario, visited and reported he is looking at the Houdin (New Deal - file) and Ellison (file) Gila County for a Canadian client called Butte Resources. When he is finished with his report he will send us a copy.
