## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MILS Sheet sequence number 0040250970 (Patented Claims M S 1328

KAP WR 10/29/82: Jim McCarthy along with his brother Joe brought in samples of quartz vein material containing chalcocite, copper oxides, galena and possible molybdenum oxides. The material is from an undisclosed locality in the area of the Squaw Peak Mine south of Camp Verde. The occurrence is reportedly on private lands (surface and minerals) owned by a friend of Jim McCarthy's. The samples were crushed and split for assay. Recommended assays for gold, silver, copper and molybdenum and a semiquantitative spectrographic analysis.

---

KAP WR 1/14/83: Met with James McCarthy in Camp Verde and traveled to the Fairview Verde Mine. Mr. McCarthy has started a reconnaissance sampling program in order to determine the properties potential. The property contains three N-S striking vein systems all of which dip to the west. The property is a past producer of both precious metals and rip-rap.

---

KAP WR 1/28/83: Crushed and split 20 samples from the Fairview Verde Mine properties near Camp Verde.

---

KAP WR 2/18/83: Jim McCarthy reported a Western Nuclear geologist accompanied him to the Fairview Verde Mine. Mr McCarthy explained the geologist reported the property was typical of small vein deposit - that is - pockety and of no interest.

**PLAT**  
 OF THE CLAIM OF

David W Strahan  
 KNOWN AS THE

SILVER CUP  
 RUSTLER  
 AND PINE GULCH  
 IN SQUAW PEAK MINING DISTRICT,  
 YAVAPAI COUNTY, ARIZONA  
 Containing an Area of 61.85 Acres.  
 Scale of 500 Feet to the inch.  
 Variation 13° 30' E

SUBMITTED DEC. 3-6 1898 BY  
 F. J. FISHER U.S. Deputy Mineral Surveyor

The Original Field Notes of the Survey of the Mining Claim of  
 DAVID W. STRAHAN  
 known as the  
 SILVER CUP  
 RUSTLER  
 AND PINE GULCH

from which this plat has been made under my direction, have been examined and approved, and are on file in this office, and I hereby certify that they furnish such an accurate description of said Mining Claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects or permanent monuments as will perpetuate and fix the locus thereof.

I further certify that Five Hundred Dollars worth of labor has been expended or improvements made upon said Mining Claim by claimant or his grantors, and that said improvements consist of

- 4 Shafts
- 2 Cuts
- 3 TUNNELS and 1 Boarding House

that the location of said improvements is correctly shown upon this plat, and that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim.

And I further certify that this is a correct plat of said Mining Claim made in conformity with said original field notes of the survey thereof, and the same is hereby approved.
