Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

FOSSIL CREEK COAL

COCONINO COUNTY
FOSSIL CREEK

Robert L. Langguth, 1002 35th Ave., Phoenix reported that Cerro de Pasco was developing a coal seam in Fossil Creek, Cocónino County. The seam is 4 feet thick and runs 40% carbon content.

Has 2 cats uncovering 4-foot seam of coal. (S 1 E, T 12 N, R 8 E (approx.)

LEWIS A. SMITH, 3-11-60 - WR & Memo 3-14-60

Visit to office - Robert Langguth commented upon work in progress on coal deposits on upper Fossil Creek in an area centered about Strawberry (about 10 miles westerly from Pine). The Cerro de Pasco Co. is interested here and the Zeckendorff people of the Clarkdale steel project are also concerned. The Cerro de Pasco geologist for the project is Robert Reynolds, resident in the area. It is said that some 65,000 acres are blocked in leases by several groups. Complete reliable data are not available at this moment.

Mr. Fredell, of Zeckendorff Steel Company at Clarkdale, confirmed in part the account noted of coal prospecting activity in the upper part of Fossil Creek. Cerro de Pasco is doing some road building and surface prospecting. The information obtainable re this work is rather sketchy. I will try to contact Reynolds at the property on another trip in the area.

TRAVIS P. LANE, 3-26-60 - WR
