Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

STATE OF ARIZONA  
FIELD ENGINEERS REPORT

FILED

JAN 2 1964

Mine Franklin Claim

Date January 16, 1964

District Tombstone District, Cochise County

Engineer Axel L. Johnson

Subject: Field Engineers Report. Information from James Barko and personal visit.

Location: Approximately Sec. 21 - T. 20 S. - R. 22 E., 3 miles SW of Tombstone along the Charleston Road.

Owner: James Barko, P.O. Box 262, Tombstone, Ariz.

Number of Claims: 1 fractional patented claim (about 12 acres).

Principal Minerals: Lead & Silver

Present Mining Activity: Mining, hand sorting and screening a small amount of lead-silver ore for mill tests.

Geology & Mineralization: Ore vein, about 18" wide, is exposed on the side of the shaft and open cut trenches.

Ore Values: Mr. Barko reports that samples taken on the vein ran 15% lead and 10 oz. of silver.

Old Mine Workings: 1 vertical shaft - depth unknown, but believed to be several hundred feet deep.

About 50 or 60 ft. of open trenching on both sides of the shaft.

Some old open cuts.

Proposed Plans: Mr. Barko discussed with field engineer advisability of constructing a small mill (jigs or tables) of a few tons per day for milling the ore. Field engineer was of the opinion that a mill of such a small capacity would not be economical.

Additional: Mr. James Barko also owns the Terrible patented claim about 6 miles south and 2 miles west of Tombstone and the Rattler patented claim about 8 miles SW of Tombstone.

---

PLATA Y ORO MINE

Sec. 16, 20S, 22E.

Owner James Barko

WR G.I. 7-12-77 - Dave Rabb of ABM asked where the Plata dy Oro mine was located. It is on the Charleston Road out of Tombstone, across hwy. from Ernie Escapule Sr. home.
