## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

ARIZONA DEPARTMENT OF MINES AND MINERAL RESOURCES AZMILS DATA

PRIMARY NAME: GATESH BARITE PROSPECT

ALTERNATE NAMES:

MARICOPA COUNTY MILS NUMBER: 879

LOCATION: TOWNSHIP 4 N RANGE 9 E SECTION 34 QUARTER N2  
LATITUDE: N 33DEG 38MIN 48SEC LONGITUDE: W 111DEG 24MIN 56SEC  
TOPO MAP NAME: MINE MOUNTAIN - 7.5 MIN

CURRENT STATUS: EXP PROSPECT

COMMODITY:  
BARIUM

BIBLIOGRAPHY:  
ADMMR GATESH BARITE PROSPECT FILE

NJN WR 11/20/81: George and Bill Gatesh, 7113 E. First Avenue, Scottsdale, AZ. 85251, Phone 947-2171 visited to discuss their barite and fluorite occurrence. Before submitting this property to any mining companies they asken Ken Phillips and I to visit it and make a brief evaluation. The company they were planning to contact was the Laurence Mining Company, 7975 N. Hayden Rd., Scottsdale, AZ. (Jim Jones is company geologist). The brothers reported that their Gatesh Copper Prospect, Maricopa Co. is currently under lease to this company. Further discussion revealed the brothers were not aware of and had not complied with changes in the mining law brought about by the FLMP Act. Thus their claims were void. They decided they would get Coe and Van Loo to relocate their claims for them and they would call the Department at a later date for a visit.

---

NJN WR 11/27/81: Bill Gatesh (Gatesh Copper Prospect) reported that Coe and Van Loo has staked 6 claims for him and his brother George on their barite property. An appointment was made to visit the property December 2, 1981.

---

NJN WR 12.4.81: Visited the Gatesh barite and copper prospect with Ken Phillips. A field visit report will be written.

---

NJN WR 8/6/82: George Gatesh called with some questions about what qualifies as assessment work. At the Gatesh Barite, Maricopa County, even though no work was required, (a notice of intent to hold would have sufficed), the brothers have filled in the worst parts of the road, taken more samples and cut the vein a few more places in attempting to find some areas where the vein is wider.

---

NJN WR 8/12/83: George Gatesh called and reported that the company from Victorville, California has look at and dropped the Gatesh Barite Project. He and his brother are now looking for someone else with an interest in barite or flourspar to lease the property.

---

LOCATION NOTICE  
(Lode)

NOTICE IS HEREBY GIVEN that the BARITE lode mining claim has been located by GEORGE GATESH, BILL GATESH, & ADOLPH ROMO, whose address is 7113 1<sup>ST</sup> AVE, SCOTTSDALE, ARIZONA.

The general course of this claim is NORTHWESTERLY and it is situated in the SUNFLOWER Mining District, MARICOPA County, Arizona.

This claim is 1500 feet in length and 600 feet in width. The claim runs from the location monument on which this notice is posted 10 feet in a NORTHWESTERLY direction to the NORTH end line and 1490 feet in a SOUTHEASTERLY direction to the SOUTH end line. The claim boundaries are marked by six monuments, one at each corner and one at the center of each end line of the claim. The location monument on which this notice is posted is situated within Section 27, T. 7N, R. 9E, G&SR11, Arizona, and this claim encompasses portions of the following quarter section(s), Section(s), Township(s), and Range(s):

SE 1/4 UNSURVEYED SEC. 27, AND NE 1/4 UNSURVEYED SEC. 34, T 7 N, R 9 E  
G&SR11, Arizona.

The locality of this claim with reference to some natural object or permanent monument and additional information (if any) concerning its locality are as follows:

AS PER MAP ON REVERSE SIDE OF THIS NOTICE

DATED AND POSTED on the ground this 24<sup>TH</sup> day of NOVEMBER, 19 81.

LOCATOR:

John M. Wigg
