## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Use additional sheets if necessary.

Dear Sam -

Inclosed find report on Leesman placers.  
I was thinking that perhaps your inquiry was from  
Steel Suttin & Steele - Dallas Texas  
The Morgan Construction Co - Pittsburg used this ground  
last Oct Nov - and Dec. To work out tests on a small  
model of a new method that Hub. Morgan had invented  
his reports showed  $1\frac{1}{2}$  for 3 side gulches. and  $1\frac{2}{3}$   
for main tributary to Leesman - only ground tested

His backers - S.S. Bruce and Harry Ghies. of Koppers Co  
(Mellon outfit) got cold feet and sold the patents to  
Steel Suttin - Steele -

" " " Took Morgan on as research man  
and to complete large machine on the order of the small  
one. I recd word in Aug that the big spread would  
be completed by Nov. and it was understood they were  
coming back here. If you can get on to deal  
I know what to do with 25%

Dix

Mr Sam Cupal.

Introducing Mr Geo. De Talent  
who is interested in Leisvan  
Placers. Will you please give him  
copy of reports on the property.

yours very truly

Wm. A. Henneke

1 Copy to - Geo. De Talent

3913 Longview St

Phoenix.

Request of Henneke.

13 July 1940

Mr. A. J. Henneke,  
Box 98,  
Oracle, Arizona.

Dear Mr. Henneke:

I thank you for your letter of recent date, and the corrections have been made on the Geesman Placers and on the Big Six Groups.

On the Geesman Placers - terms are now shown as follows:

Sale - cash \$10,000.00 or  
25,000.00 on terms  
Lease 10% royalty - \$100.00 per month until  
operations start.

On the Big Six Group - water supply is shown as follows:

Plenty of water for any size mill can be developed for \$1,000.00. State Engineers Report.

Trusting that this is now shown as desired, and assuring you of my desire to be helpful, I am, with best wishes,

Yours very truly,

J. S. Coupal  
Director

JSC-jrf

24 July 1940

Mr. A. J. Henneke,  
Oracle,  
Arizona.

Dear Dix:

Mr. George DeTalent came into the office today with a note from you asking for a copy of the report on the Geesman Placers. I gave him a copy of the only report available on the property, and if you will look at the copy that you have you will see that there is little or no information on it.

If you hope to interest capital, I should suggest that you give time and attention to the preparing of the mine owners report - giving particular effort to the detail of the work done and the results obtained. The object of these reports is to create an interest before the parties who might be interested go into the field.

I am sure with the assistance of P. K. Dayton you can furnish a report that would be of value to you.

Assuring you of my desire to be helpful, and with best wishes, I am

Yours very truly,

J. S. Coupal  
Director

JSC-jrf

September 8, 1941

Mr. A. J. Henneke  
Box 98  
Oracle, Arizona

Dear Mr. Henneke:

A copy of the Mine Owner's Report which you filed on the Geesman Placers has been sent to William H. Smith, 521 Empire Building, Pittsburgh, Pennsylvania. He selected your property as one of several on which he wanted further information and we have sent him all the data we have. It might be well, however, if you would send him a more complete statement which would encourage him to have a personal examination made.

With kindest personal regards, I am

Yours very truly,

Chairman, Board of Governors  
Arizona Department of Mineral Resources
