No information on this property.

MARK GEMMILL

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine Gold Medal Date December 22, 1942

District Big Bug, Yavapai County, Arizona Engineer A. C. Nebeker

Subject:

Location: Prescott, Arizona.

Former name: Not known.

Owner: Mrs. Culver, Dewey, Arizona

Operator: None at present

Principal Metals: Copper and gold.

Power: Amt. & Type: None.

Operations: Present: None.

Operations Planned: Mr. Harry Hopkins of Prescott, and associates are now doing some figuring on starting this property up, by taking a lease on it.

Number Claims, Title, etc.: 4 held by assessment work each year.

Description: Topog. & Geog.: This property is up Big Bug creek about 3 miles above Poland Junction. The four claims are down in the lowest part of the canyon and the main auto road crosses the north side of the property. The surface is gentle and covered with Buck Brush and scrub oak.

Mine Workings: Amt. & Condition: The mine workings consists of three shafts and two shallow cuts. One shaft about 200 feet deep, with water standing within 40 feet of the surface. This shaft has a good head frame setting on the collar, this is approximately 22 feet high and made of 8 x 8 timber.

The one shaft is caved, so it is really hard to tell where the collar is. This is supposed to be 400 feet deep.

The third shaft is a small one compartment with water 50 feet down.

Geology & Mineralization: The geology is a decomposed granite with a porphyry dyke cutting across the country. In the shaft on which the headframe sets there was cut a light gray granite-porphyry which appears to be very much fractured. The seams in this zone are filled with copper sulphide. These are from the size of a hair to half inch thick. The rock weathers down with ease leaving the copper sulphides exposed.

Ore: Positive & Probable, Ore Dumps, Tailings: There is no ore blocked out. There are no assays available and the only assays that could be taken would be from the dump.

Road Conditions, Route: The road is good and will be open all year.

Water Supply: Water can be had from the creek nearby, and the mine workings will furnish some.

Brief History: I could not find anything concerning the part on this property.

Special Problems, Reports Filed: To find out what the present showing is worth, it would be necessary to take a 50 ton sample and see what can be done for bulk production.

If property for sale: Price, terms and address to negotiate: For sale on lease and option to buy, price \$15,000.

(Signed) A. C. NEBEKER

To the Owner or Operator of the Arizona Mining Property named below:

Gold Medal Copper some Gold
(Property) (ore)

We have an old listing of the above property which we would like to have brought up to date.

Please fill out the enclosed Mine Owner's Report form with as complete detail as possible and attach copies of reports, maps, assay returns, shipment returns or other data which you have not sent us before and which might interest a prospective buyer in looking at the property.

FRANK P. KNIGHT,
Director.

Enc: Mine Owner's Report

March 11, 1943

Mrs. Ada Culver
Dewey, Arizona

Dear Mrs. Culver:

In reply to your letter of March 9 I am enclosing a brief report on the Gold Metal property made by A. C. Nebeker. You will note that Mr. Nebeker recommends taking a fifty ton sample of the dump. This may or may not be the best plan to get a line on what the property is capable of producing. If a systematic sampling of the dump was made, it might show the value of the dumps.

In making a sampling, however, I believe it might pay, at the same time that you examine the dumps, to find their real assay value and you could take a separate sample along the same lines as the sample taken for assaying, and on this second sample hand-sort to see whether or not it would be possible to sort the dump or at least determine what grade of ore could be sorted if mining proceeded.

Very truly yours,

J. S. Coupal, Director

Mr Dan Coupal

Director Ariz Dept of Mineral Resources
Phoenix Ariz

Dear Sir. did Mr A C Nebelker make a
report on the following named mining claims.
Gold Medal Gold Medal #1 and #2 Copperford. in
the Big Bend district Yavapai Co. if so what was
his report.

I called at his former office in Prescott March 6th
and talked with Miss Sparks she told me to write
you.

Yours Truly
Miss Ada Culver

December 13th, 1942.

MEMORANDUM,

To; Earl F. Hasting,

From; A. C. Nebeker,

I contacted Mrs Culver, of Dewey, to see what she wanted to do about the Gold Medal property. She informed me she had given a lease and option on it, and that she had given up the plans of getting a loan for the present.

I have a date to go over this property with the new Lessees this coming Tuesday.

(NOTE: THIS REFERS TO DOCKET C-ND-PHX 71)

MEMORANDUM

TO: A. C. Nebeker

FROM: Earl F. Hastings

On November 10 a memo was sent to you relative to information on the Gold Medal property owned by Mrs. Ada Culver, c/o A. M. Warren, P. O. Box 174, Mayer, Arizona.

This docket was sent to us by the RFC on November 6 as they are anxious to have our recommendation on all old dockets. I am wondering if you have been able to obtain any information on this property.

MEMORANDUM

TO: A. C. Nebeker

FROM: Earl F. Hastings

Will you please check on the property of Mrs. Ada Culver, c/o
A. M. Warren, P. O. Box 174, Mayer, Arizona.

An application for a Class "C" loan has been received from
Mrs. Culver. It is rather incomplete and we hesitate to forward
it without obtaining such additional information as is possible
to get.
