Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Hamilton Sand and Gravel
By Ken Phillips, Chief Engineer
Date August 5, 2002

Cochise County

Ken Phillips contacted David May to find the current status of Hamilton Sand and Gravel for the 2002 Directory of Active Mines.

He provided information for the updated listing that will be included in the 2002 directory.

He is currently shipping 8 to 10 truckloads daily (10 wheeler or "bob tail"), of 15 tons each. He produces natural aggregates and sand. All material is washed and screened, but nothing is crushed. In addition to washed aggregate he produces mortar sand, plaster sand, and pebbles.

He did not know the legal description of his pit site but provided sufficient directions - located on the SW corner of Hamilton and Cox exactly 1 mile north of the Wilcox Airport - to determine the pit is located in the NE¼, Sec. 33, T.13S., R.24E.

The revised listing for the Directory of Active Mines is below.

HAMILTON SAND & GRAVEL

Hamilton Rd., RR 1 Box 1350, Wilcox, AZ 85643 - Phone (520) 384-2582 - Employees: 4 - Natural sand, washed sand products, gravel, and rock.

Owner

David May
