Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

OWNERS MINE REPORT

Date

1. Mine Ruby
2. Mining District & County Picacho, Yavapai
3. Former name
4. Location Eddy Wash 1 mile above road to Patchin Camp left side of wash beginning little below the big pile of white rocks on right side and at all needle rock on left side
5. Owner ☒ W. G. Duggar ☒ H. C. Strong
6. Address (Owner) (stopping NW of needle rock Morristown, Ariz. (400 ft.)
7. Operator
8. Address (Operator) 1949th St Tempe
9. President
10. Gen. Mgr.
11. Mine Supt.
12. Mill Supt.
13. Principal Metals Molybdate ☒ chime
14. Men Employed
15. Production Rate
16. Mill: Type & Cap.
17. Power: Amt. & Type
18. Operations: Present 10 ft. prospect shaft partly in ore, one crosscut tunnel that has not reached vein, 2 stripped openings showing foot wall for over ten feet up and down with average of over 6 ft. width.
19. Operations Planned Tunnel development planned
20. Number Claims, Title, etc. One, good chance to locate more claims on extension of ledge.
21. Description: Topography & Geography General course of vein along a schist ridge northwest and southeast with hard lime enclosing the vein with another that has been badly leached almost like coarse sand barely sticking together, the greatest depth by crosscuts would not be over 50 feet.
22. Mine Workings: Amt. & Condition

23. Geology & Mineralization

DEPARTMENT OF MINERAL RESOURCES
