Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

FIELD ENGINEERS REPORT

Mine THE JON CLAIMS Date May 23, 1957  
District Workman Creek Dist., Gila County Engineer Lewis A. Smith  
Subject: Workman Creek Uranium B. J. Squire

Location: T6N, R11E. Sec. 29  
Owner: Regent Oil & Uranium Company  
Operator: Rusty Moore, Globe, Arizona, Operator.

These claims are under Rusty Moore's control but no work is being done on them because the grade is relatively low and because the workings are in bad shape. Moore plans to clean up the approach cut in the near future. Water has backed up behind sluffs. The last shipments averaged below 0.20%  $U_3O_8$  because of heavy dilution.

WORKMAN CREEK URANIUM

May 23, 1957

B. J. Squire and Lewis A. Smith visited the Workman Creek Area, Thursday, May 23, 1957. The following sketch shows the distribution of the properties.
