ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

March 23, 1967

Denzil James
1405 Phoenix Ave., NW
Albuquerque, New Mexico 87107

Dear Mr. James:

Thanks for your letter of March 21st with map of the Josephine claims, and the copy of the 1910 Mining Record.

It seems evident that the Josephine claims are unpatented, and I suggest that you write to Mr. Robert Lenon, 325 McKeown Avenue, Patagonia, Arizona. He is a mining engineer and land surveyor, long and well known in the area. If he doesn't know the claims, he may know someone who does; and of course he could check them at the recorder's office and on the ground if you want to go that far.

Our field engineer is not scheduled to be in the area again before May, when you are due at Phoenix.

Sincerely,

FRANK P. KNIGHT,
Director.

Dept. of Mineral Resources

Phoenix Ariz.

Dear Sir:

I am sending you a pencil tracing of the two claims I have been trying get some information as to ownership of these claims. The report I have states that these claims have been processed for patent, but does not say that patent has been applied for. I am also enclosing a copy of The Mining Record Dated in 1910 This is the only copy the Mining Record I have and as you can see it is getting in rather bad condition so if you can use it you are welcome to it.

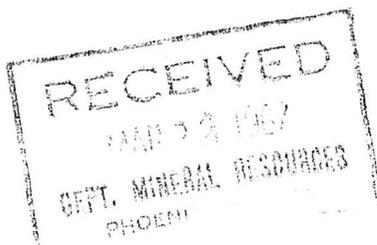

I expect to be in Phoenix between now and the middle of May.

At that time I will bring the other old magazines with me and you can go over them and keep the ones you need.

Sincerely Yours

Denzil James

March 14, 1967

Mr. Denzil James
1405 Phoenix Avenue NW
Albuquerque, New Mexico

Dear Mr. James:

Our field engineer, Jerry Irwin has sent us the enclosed photocopied map of two claims in Sec. 35, T. 20 S., R. 14 E., which could be the ones you are interested in. He sent no explanation with the map but you will note that this Sec. 35 is adjacent to the Sec. 2, T. 21 S., R. 14 E. in which you placed the two Josephine claims. You also will note that the claims on this map are Josephine Lot No. 49 and Emma - Lot No. 48.

It is likely that the copy is of a map at the County Assessor's office and that there is no record of patented Josephine claims in Sec. 2. You may have had this information and we will hear further, but this is being sent to perhaps save you the trouble of getting a copy of the map.

Sincerely yours,

FRANK P. KNIGHT, Director.

March 10, 1967

Mr. Denzil James
1405 Phoenix Avenue NW
Albuquerque, New Mexico

Dear Mr. James:

With further reference to your inquiry about claims known as Josephine Nos. 1 and 2:

Since these were surveyed in 1956, it well may be that they have been patented, in which case the Santa Cruz County Assessor at the County Courthouse, Nogales, Arizona, could tell you the owner or owners.

Our field engineer expected to learn something on a trip to the area March 2nd, but didn't get to and his next scheduled trip is on May 4th. However, he may pick up some information before then. Maybe you have found out something elsewhere.

Thank you for telling us about your Engineering and Mining Journals back to 1907. We are missing many issues prior to 1943 and a few thereafter. If you could give us an idea of what you cover prior to 1949 and what your price would be for them, we would like to know. If, on the other hand, you wish to dispose of all of them, our budget probably couldn't stand the strain. Should you care to give them to us, they would be most welcome and would be put to good use. The duplicates probably would be appreciated by the Arizona State University library. Please let us hear from you, and you might also give us an idea of charges for boxing and shipping.

Your interest in this is appreciated.

Sincerely yours,

FRANK P. KNIGHT, Director.

February 10, 1967

Mr. Denzil James
1405 Phoenix Avenue NW
Albuquerque, New Mexico

Dear Mr. James:

In reply to your letter of recent date to Mr. Knight, we regret that we have no file information on Josephine No. 1 and 2 claims.

Sec. 2, T 21 S R14E shows on our maps as being in the Baca Float boundaries and it is quite possible the claims are part of the property referred to by Axel Johnson in his memo of May 20, 1965 - copy enclosed.

We have no further information but will forward your letter to the engineer now in the Tucson office who may have further knowledge of the area and the claims in particular.

Mr. Knight is out of town at the present, but you will undoubtedly hear from him next week about the Engineering and Mining Journals which you mention.

Yours truly,

Adm. Assistant to Mr. Knight.

Mr, Frank P. Knight
Dept. of Mineral
Mineral Bldg.
Fairgrounds
Phoenix Ariz.

Dear Sir,

I am writing you to see if you could give me some information concerning some mining property in Vera Cruz County Ariz.

There are Two claims known as the Josephine no. 1&2. in the Tyndall mining district, and in 1955 were owned by El Jakarta Mining Co. Ltd. Situated in Sec. 2 Twp. 21s. Rge. 14e. This could possibly be State Land. These claims were surveyed in 1956 by T. N. Stevens & Associates Tucson Ariz.

Axel Johnson may know something about this property if he is still with you.

Also I see you are looking for old magazines, I have a number of Engineering and Mining Journals as far back as 1907.

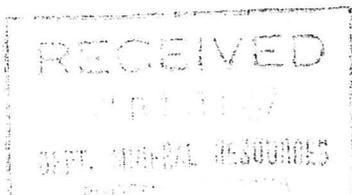

I do not like to part with them but they are becoming in very bad condition in my care, so I am trying to sell or giving them to somebody who can take good care of them.

Sincerely Yours

Denzil James

Dear Mr. James:

With reference to our February 10th letter, our engineer in the Southern Arizona district states that he will make inquiries concerning the Josephine Claims when he is in the Patagonia area early in March.

If he learns anything definite, we will pass it on to you.

Yours truly,

Adm. Assistant.

Tucson, Arizona 85701

Dear Jerry:

With reference to inquiry of Denzil James of Albuquerque about claims in the Tyndall district owned in 1955 by El Jakarta Mining Co. Ltd.:

I disagree with your idea of telling him to write to Bob Lenon. Our chief value is information service. It would cost you little time to find out from Bob, Axel or someone else if they knew the claims and who owns them. If one of them knows the property, James can be told that he does, or that he could find out the present status. If Bob were the one who knew, such an introduction would do him more good than telling James to write him first off. T. N. Stevens surveyed the claims so why pick Bob instead of Stevens' successor, who should know whether the claims were patented or unpatented federal lands?

We can discuss this at the next meeting with Charlie Willis.

Enclosed is copy of letter to James.

Sincerely,

FRANK P. KNIGHT,
Director.

Would suggest that Mr. James ~~#####~~ write to Bob Lenon in regard to the Josephine Claims. According to my map they are just north of the Baca Float Line. I think that I know where they are but am not sure.

Will try to find out more from Bob Lenon on the 2 of March
