Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine JUBILEE

Date SEPT 30th 1942.

District BIGBUG

Engineer A.C. NEBEKER

Subject: STARTING OPERATIONS

The owner of this property is Mr John Nezik and he just returned from the East to get the property into production.

The location is $3\frac{1}{2}$ miles north of Cleator and 1 mile from the Blue Bell mine.

The property consists of five claims,

The development is a 80 foot incline shaft and a few surface pits.

The ores are lead-zinc and copper.

The vein is 5 feet between walls and has a highgrade streak of 70% lead that is from 8 inches to 12 inches thick. The rest of the vein is a lower mill grade of lead-zinc and copper.

Mr Nezik tells me he has the money he needs, knows where he will get the man ~~man~~ power and machinery he needs etc.

He has a car load of ore now ready to ship and talks like he is meaning business.

Enc: Mine Owner's Report

Dec. 16th, 1942.

MEMO
To; Earl F. Hastings
From; A. C. Nebeker

Jubilee Mine
Owner Mr John Nezik
Cleatro, Ariz.

Mr John Nezik just returned from Pittsburg, Pa. and since his return has got a road constructed to the mine, so he can now get supplies in, and he expects to get into steady operations atonce.
