Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

County: Santa Cruz  
AzMILS Number:

SUMMARY

John Tames, 5470 N. Cumberland Drive, Tucson, Arizona, phone 887-5650 requested information on the Justice patented claim in Santa Cruz County. We did not have any.

The location is shown by an adit symbol on the Duquesne 7.5' quadrangle, but not the same named 15' quadrangle used to establish the original AzMILS locations. Mr. Tames' son-in-law, Carl T. Sandberg, Jr., 5265 W. Sunset Road, Tucson, Arizona, phone 743-3216 owns the property which consists of a single 20 acre claim. They report the property contains a number of shallow shafts and short adits.

I suggested they request a copy of the mineral survey MS 3813 and the surveyor's notes from the BLM. It may be the only public data on the claim.
