ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Mason - good talking with you this morning & Happy Thanksgiving!
- Here is a copy of Steve VanCott's letter to the
Dept of STATE Lands as well as a map showing
The location of The STATE Section 17, T14N, R19W

We both certainly appreciate your interest and
assistance. I'll stop by next time I'm in PHX!

Cheers! Bob Schaffer

M. Jean Hassell
Arizona State Land Department
1616 West Adams
Phoenix, Arizona 85007

Dear Mr. Hassell:

Enclosed is an application, required fees, and ingress/egress map for a mineral exploration permit for section 17, Township 14N, Range 19W, Mohave county, Arizona.

8 MILES 291A

I have been told that this land is currently withdrawn from mineral exploration. I request the lands to be opened for mineral exploration and development for the following reasons:

- 1) The land has indications on the surface for a significant gold deposit. These include assays over 1 ppm Au from surface rock chip samples and extensive alteration of bedrock. The land has never been tested by drilling. A hardrock mining operation could provide substantial royalty revenue to the State of Arizona.
- 2) Post-mine use of an open pit operation could provide an ideal location for future expansion of the Lake Havasu city dump, which is located approximately 2-3 miles away. Also, mine waste rock and rinsed heap leached tails could provide material to the local construction industry, some of which are currently being mined from nearby gravel quarries.

I look forward to hearing from you. Please do not hesitate to contact me if additional information is required.

Sincerely,

Steven Van Ert
