Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

Mine Lazy C Quarries

Date July 3, 1953

District Amole District --- Pima Co.

Engineer Axel L. Johnson

Subject: Field Engineers Report --- Information from Jos. H. Canfield, Sr., Owner

Location Approximately Sec. 35-- T 13 S -- R 12 E
10 miles NW of Tucson. Take Silver Bell Road north for 7 miles. Turn
left (west) on Sweetwater Drive. Drive 2 1/2 miles west on Sweetwater Drive to
Mr. Canfield's home. Drive approx. 3/4 miles SW from his home to the quarry.

Number of Claims Land held in fee.

Owner Joseph H. Canfield, Sr., Sweetwater Drive, Tucson, Ariz.

Operator Same as above, when in operation.

Principal Minerals Rhyolite rock, used as building material.

Number of men employed Quarry operated intermittently by sons of Mr. Canfield.

Production Rate Varies according to conditions and needs.

Topography Fairly flat---on east side of Tucson Mts.

Marketing Facilities Rhyolite rock used for building materials in vicinity of Tucson.

Uses Rhyolite rock quarried is used for building construction---building blocks,
fireplaces, barbecues, and as flagstone for walks. It could also be used as an
aggregate in concrete work.

Operations Operated intermittently according to demands. Mining equipment consists
of air compressor, tracks and cars. Building blocks have to be cut to proper shape
and size by chisels.

Prices \$3.00 a sq. ft. face for building blocks. \$1.50 per sq. ft. for flat work---
for terraces, floors, walks, etc.

Proposed Plans No definite plans.
