NJN WR 9/19/86: Lloyd Pruitt, P O Box 1183, Wickenburg, Arizona 85358, 684-7309 reports that he has the Little Joker (f) Yavapai county on which he has a quartz vein which carries up to 100 oz ag/ton. He is producing a couple of tons of ore per week and is looking for a market for the material.

RRB WR 4/10/87: Lloyd Puritt of the Little Joker (f) Yavapai County came in for information and advise on the use of cyanide. He reports that he has a small amount of high grade silver in quartz in a white gouge. He said that a tabling test at Stutenroth's was unsuccessful but that a cyanide leach bottle test at Iron King Assay Office gave good results. I suggested that he try to sell it to Nor Quest at the Gladiator.
