Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

FIELD ENGINEERS REPORT

Mine Little Bit More Group

Date July 1, 1977

District Florence, Pinal County

Engineer Ken A. Phillips

Subject: Present Status

Claim names: Little Bit, Little Bit More, And Then Some and, And Then Some 2 through 23. Twenty-five claims in all. See attached map.

Owner: Joe Krelic, 206 N. 32nd Place, Phoenix, Arizona 85034

Location: Secs. 32 and 33, T6S, R10E, Picacho Reservoir, SE Arizona, 7 1/2 minute quadrangle. See attached section of map.

Information Source: Joe Krelic, Interview, July 1, 1977, in Scottsdale.

Status: Joe Krelic reported the following information:

He and a partner staked a copper stained outcrop (Little Bit) after obtaining an assay of 8.6% Au, 0.9 oz./ton Ag, and 0.08 oz./ton Au from a select sample. They then returned to stake 9 claims in May 1976. Based on what they felt might be a trend to an ore body, they staked an additional 12 claims in June of 1977.

Workings: One prospect pit 7 feet deep on the outcrop on the Little Bit claims.

Sampling: Three samples from the prospect pit. Method of sampling not known.

	Cu (%)	Au (Tr. oz./ton)	Ag	SiO ₂ (%)
From copper stained outcrop -	8.6	0.08	0.9	
From 2 ft. below surface in prospect pit - 6+	6+	0.02	0.8	
Bottom (7 ft.) of prospect pit -	3.7	Nil	0.6	86

Present Plans: Cris Cecil of Cecil Trucking Inc., Globe, plans to assist Krelic in drilling the probable vein host structure in hope of developing a reserve of siliceous copper ore for shipment to Inspiration for smelter flux. If a reserve is developed, Cecil Trucking is reported to be planning to operate the property.
