Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MEMO FOR FILES

FROM: John H. Jett, Director

DATE: 5/9/85

SUBJECT: Telephone call from Mr. Warren Mallory, Apache Oro Co. Box 730,
Laramie, Wyoming 82070

They own the Apache Oro, Golden Gate, King Tut, Lone Jack Placers and Climax mine in T29 and 30N. \$17W. They have had the property leased the last 9 years but have recently been able to break the lease. Resources International out of Denver was leasee and operator. Their parent company has gone into bankruptcy. They spent \$2,000,000 and ended up with nothing.

Jim Cazier was initial consultant on the project. J.C. recommended small, small 5 ft. high pilot leach plant. He was let go and they made 20 ft. high production facility. USGS recently completed open file report (82-1052) - Preliminary Report of Gold Mineralization of Gold Gasin and Lost Basin Districts.

Mr. Mallory will send us copies of reports he has had made. In return he wants names of some companies he can contact.
