Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MAP SHOWING GENERAL AREA OF THE MARIA CLAIMS
 MARICOPA COUNTY, ARIZONA

MARIE

MARICOPA COUNTY

KAP WR 2/17/84: In the company of Art Lee (a close friend of Ted Housley) a visit was made to the Marie Claims, Maricopa County. This is a group of workings not given in MILS and not shown on the topographic map. Although the vein appears to be an extension of the vein on the Lucky Cuss it is being indexed as a separate occurrence because it is in a different section under different land management agency control and different ownership.

MINE AND PROSPECT FIELD VISIT DATA SUMMARY

Sheet 1 of 2

COMMODITIES GoldMILS ID No. _____ Date Feb. 15, 1984ENGINEER Ken A. PhillipsINFORMATION FROM: Field visit with Art Lee and interview with Ted Housley.PROPERTY SUMMARY

→ I. MINE NAME Marie OTHER POSSIBLE NAMES _____
 INCLUDING ANY CLAIM NAMES NOTED _____
