My dear Mrs Hoggans
I notice in the Morning Republic that
possible you are in contact with mica
people

I have a ~~depos~~ 9 mile from Tucson
8-mile paved road and an excellent
road can be built direct to the mine
Vein a ledge is about 5 ft or a little
more wide

Can work on the curb cropping for 60-70
steps

Possible the vein might be that width
If you are in contact with any one who
might be interested in such a property I
will be glad to hear from them
and send them samples

Mica is a milking grade Scotch de basit
I will be glad to hear from any one interested

Yours Truly

Dear Mr. Smith:

Your letter to Mr. Jackson Hoagland has been turned over to me for my attention. We have had several inquiries for mica and are apt to have others from time to time.

I am enclosing a Mine Owner's Report form and would suggest that you fill this out in as complete detail as possible. The inquiries we have on hand all ask for information which can be covered in this report form and on receiving it we will place it in our file under mica and refer your property to any such inquiries when and as they come in.

Very truly yours,

Dear Sir

I would be very much to have you inform me if you are in line with any Mica people

Property is 8 miles from Tucson good high way except 1-1-2 miles. But a track can be driven to the dump

The Mica is a good clean milky grade and is in large deposit

If you have any such deals I would be pleased to hear from you

Yours truly
