## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MINE, MILL EQUIPMENT & FLOW SHEET.

24A. ~~Dimensions and Values of Ore~~ Hoist, home built, Compressor to handle one drill homebuilt, air line into shaft.

25. Mine, Mill Equipment & Flow-Sheet

26. Road Conditions, Route Take Rucker Canyon road leading off state highway 81 to Fred Moore ranch 12 miles, turn south and follow partly improved road up canyon past Old Dan Taylor ranch and Great American Mine, continue past Chance Mine 1/2 mile. Total distance from highway 81 about 17 miles.

27. Water Supply No water on property yet developed. Canyon contains water that is developed by sinking. On adjoining Chance mine water for small mill is taken from a shaft 140 ft. in depth.

28. Brief History This property was located in May, 1935. There were signs of older workings and some low grade ore lying around the old workings, which were not extensive.

29. Special Problems, Reports Filed No engineer's reports available.

30. Remarks

31. If property for sale: Price, terms and address to negotiate. The property is for sale at a prospect price for cash, but would prefer to make a grubstake contract and continue development with about \$2000.00 working captial to return money from production and give a substantial interest. Owner is experienced in prospecting and small scale mining, and could carry out working program economically.

32. Signature.....(Signed) R. H. Parker.
