Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

ADMMR NOSCUT MINE FILE

M E M O R A N D U M

October 25, 1943

TO: DIRECTOR OF THE DEPARTMENT OF MINERAL RESOURCES

FROM G. A. BALLAM

SUBJECT: Noscut Mine

Consists of 10 patented claims in the Helvetia Mining District 7 miles S. W. Mountain View by good road. Owned by Noscut Mining Company, Dr. Toole, Bisbee, Agent, and leased by C. J. Hall, 811 E. Drochman Street, Tucson, Arizona.

This is located in the northern foothills of the Santa Cruz Mountains and is the extremenorthern end of a series of limestone beds dipping about 40° S. E. Replacement of lime by galena and sphalerite carrying 4-5 ozs. silver.

Opened by a tunnel about 150 feet with some stoping from which ore was sorted and shipped about the time of World War I. There are several cross fissures also containing values and a winze about 100 feet deep was sunk on one of these junctions. Ore averages \$22 in values. Spotty.

No equipment on property.

G. A. Ballam
