The following file is part of the

Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

STATE OF ARIZONA

FIELD ENGINEERS REPORT

Mine **PEACOCK** Date **November 10, 1957**  
District **Green Valley District Gila Co.** Engineer **Lewis A. Smith**  
Subject: **Phone call by Jerry Trent**

Mine in Secs. 3-4, T. 8 N., R. 10 E - 14 mi south of Payson, Gila Co.  
both

Owners & ) Jerry Trent, Nelson Lynch/of Ontario, California  
Operators) B. B. Jackson and M. K. Jackson both of Tucson, Arizona

Exploration - sinking a shaft on the vein at a 45° angle - now at a depth of 4'. Old Spanish shaft 150' deep on same angle.

Mineral: Gold, silver, copper and mercury

Geology: The deposit consists of a quartz vein dipping 45° west. The country is shale and the vein is about 8" wide at surface; but widened some at 4'. The ore values a/c Trent av. \$61 per ton of silver and \$11.60 per ton copper.

MARSH, TONY 1954  
and C. T. Davis, Leonard Hardy
