## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

## PHOENIX BRICK YARD

KAP WR 10/23/87: In the process of gathering data for the new Directory of Active Mines in Arizona talked to Fred Campbell, Clinton - Campbell Contracting Inc. dba Phoenix Brick Company (card) 1814 S. 7th Avenue, Phoenix, Arizona 85007, phone 258-7158. He reported they own the land at their Tolleson Mine, Maricopa County. The clay pit is in the NW, SE, Sec. 3, TIN R1E. The clay is blended with those they mine from their Panatano Clay Pits for various colors and textures in the final brick product. The clays are fired at 1950 degrees F.

CONTACTS REGARDING CURRENT PRODUCERS OF STRUCTURAL CLAY IN ARIZONA

Building Products Company,<sup>(f)</sup> 4850 W. Buckeye Road, Phoenix, Arizona 85043. Phone (602) 272-5576 mines clays and manufactures clay pipe. They also have an idle roofing tile plant at the same location. Don Morris is in charge of their raw materials mining operations. Their parent company is Mission Clay Products, P.O. Box 391, Whittier, California 90608. Phone (213) 692-0865. Walt Garrett is the individual to contact regarding purchasing clay.

Phoenix Brick Yard,<sup>(f)</sup> 1814 South Seventh Avenue, Phoenix, Arizona. Phone (602) 258-7158. The company operates clay pits and manufactures a variety of clay bricks. Mr. Fred Campbell is President and explained that their clay reserves were too limited to consider selling clay to other users.

The Brick Works,<sup>(f)</sup> P.O. Box 17956, Tucson 85731. Phone (602) 298-8631. The contact person is the owner, Donald Clark. The company mines clays and manufactures bricks in the Tucson area. Mr. Clark feels they have one of the few clay deposits that burns red and is large enough to supply an outside consumer. Further he would like to meet with you or your company's representatives and supply some samples.

Don Morris,<sup>ye/cancel</sup> Consulting Engineer and Geologist, works for Building Products Company and also provides consulting services related to exploration and development of clay deposits. Because of his many years of work for Building Products he is quite familiar with many clay occurrences in Arizona. He can best be contacted on weekends at home in Phoenix at (602) 276-7822.

MINERAL BUILDING, FAIRGROUNDS  
PHOENIX 7, ARIZONA

January 22, 1964

Notes from ASMOA meeting 1-21-64 - FPK

Phoenix Brick Yard  
1814 So. 7th Avenue,  
Phoenix, AL8-7181

           Campbell

Makes 115,000 bricks per day. Delivered price is about \$11.50 per ton which gives an idea of what can be paid for clay. Some is bought for 5¢ per ton.

The bricks weigh approximately 3,045 lbs. per 1,000.

They use some west coast clays @ \$2 to \$10 per ton plus about \$10 freight to Phoenix, for blending with some kinds of brick. They are clays of known, reliable quality.

They mine one clay from 30 miles south of Tucson near Pantano Wash. Have tandem hopper trucks for hauling.

They are always interested in Arizona clays.
