Dear Sirs:

I am enclosing the paper
you sent me, filed out to
the best of my knowledge.

Mr. Newell passed away
on Mar 16, 1945, but he had
deeded the mining claims
to me in 1941 or 42.

I am not acquainted with
mining, geology, etc, so can
not give you much in-
formation on that.

I am hoping that the other
mines, the Cyclopic, & Fry mine
will begin working so that
I can dispose of the property.

Any help you can give me
will be greatly appreciated.

Yours truly

Mrs. Edna M. Newell

Dear Sirs -

Enclosed is description of our gold mining property. would really be pleased if some thing could be done to turn this property.

Also at this time, I'd like to tell you about a turquoise claim I have. It is located in Mineral Park, adjacent to patented claims of turquoise. This is 100% virgin ground - very little work having been done on it.

Adjoining this property, to the north is H. Winkler patented claims (3) - To the South & South east, (adjoining is the unpatented turquoise claims of Jno Gross. and to the East, just over the hill, but still adjoining property is the largest producing turquoise mine in Mohave Co. - The Los Angeles Gem & Jewellery Co own it. I want \$1500 for this full length.
