## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

RENNER BARITE

YUMA COUNTY

KAP WR 5/7/82: Renner Barite, Mohawk District, Yuma County. The Renner Barite property is Sec. 11, 12, 13, 14 of T8S R15W is located as the Mohawk Claims. New monuments have been erected since spring of 1978 and some hand tool repairs have been made to the road. The barite vein deposit can be traced on the surface for over 4,000 feet. However, in only one place was the exposed outcrop wide enough to be mined. The outcrop should be carefully mapped in an attempt to determine where wider buried shoots might occur.

The Mohawk claim group consists of 3 claims, Mohawk #1-#3, located in 1979 by Randy McElhaney, Rt 1, Wellton, Arizona 85356.

---

KAP WR 10/5/84: A visit was made to the Renner Barite property (file) in Yuma County. There has been no activity since previous visit. No indication that monuments have been maintained or physical assessment work has been completed was seen. (Other forms of assessment work are acceptable.) The long strike length of this barite occurrence remains a positive factor.

---

ARIZONA DEPARTMENT OF MINERAL RESOURCES  
MINERAL BUILDING, FAIRGROUNDS  
PHOENIX, ARIZONA

August 8, 1958

To the Owner or Operator of the Arizona Mining Property named below:

<u>Toltec Mine (Yuma County)</u>	<u>Barite</u>
(Property)	(ore)

We have an old listing of the above property which we would like to have brought up to date.

Please fill out the enclosed Mine Owner's Report form with as complete detail as possible and attach copies of reports, maps, assay returns, shipment returns or other data which you have not sent us before and which might interest a prospective buyer in looking at the property.
