Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MR-39

DEPARTMENT OF MINERAL RESOURCES
State of Arizona
MINE OWNER'S REPORT

Date: December 11, 1941.

Mine: ROYAL FLUSH NOS. 1 to 6.

District: Weaver M_g. District,
Yuma County, Arizona

Location: About 5 miles south of the Old
Cinnabar Patented Claims.
18 miles from Quartzsite. *on Federal
Land*

Former Name:

Owner: ☒ B. M. Reynolds and Nelson
Hollinhead,

Address: Box 313, Bouse, Arizona

Operator:

Address:

President:

Gen. Mgr:

Mine Supt:

Mill Supt:

Principal Metals: Cinnabar

Men Employed:

Production Rate:

Mill - Type & Cap:

Power - Amt. & Type:

Operations - Present: Location work done.

Operations Planned:

Number Claims, Title, etc: Six claims all in length, 9,000 ft. long.

Description - Topog. & Geog: Fissure in schist dip from 80 or 90 to 45 deg.,
approximately 2 miles long and from 50 to 60 ft. in
width.

Mine Workings - Amt. & Condition: Location work and crosscuts.

Geology & Mineralization: Top of mountain - Malapai and schist in fissure veins. Quicksilver, gold and silver ores. But the vein does not have any copper.

Ore Positive & Probable, Ore Dumps, Tailings: This is a steam shovel property. At present have had no assays, but have operated a small retort and recovered quicksilver.

Mine, Mill Equipment & Flow-Sheet:

Road Conditions - Route: Level road, no mountains or hills and about 6 or 7 miles of Yuma and Quartzsite Highway No. 95, and the same distance from the Highline from Parker Dam to Yuma, and about 9 or 10 miles from the Colorado River. About 18 miles from Quartzsite on Federal Highway 60. Would be very feasible to blade and bulldoze a road from one end of this property to the other by making it on the vein, as it would not take any powder to speak of as the ore is soft.

Water Supply:

Brief History:

Special Problems - Reports Filed:

Remarks: We will sell this property to the right party or parties, but it will have to be the right people for this is the largest of this kind I have ever heard of.

If property for sale - Price, terms and address to negotiate: You can advertise this as we want to get a strong company on this at once.

SIGNED: (Signed) B. M. REYNOLDS,

Cinnabar:-

MR-39

Six unpatented claims covering 9000 feet along strike of vein - along top of mountain showing schist - mth ore in fissure vein. Opened up by cross-cuts and location work. - showing an ore zone 50 to 60 feet in width. Six miles off highway - on low rolling country. No assays available - have operated small retort on ore from vein and recovered quicksilver. Low grade - large scale operations. For sale on suitable terms to interests capable of large scale well financed operations.
