Vulture Mine Project

Main Pit Area

Scale: 1" = 50'

Drawn by: C. O'Brien

Date: October, 1984

Base Map: M.W. Hood

Revised: January 1985

- anomalous areas Cyprus rock chip sampling > 0.04 oz/t
- surface projections of mineralized zones intersected in drilling; positions based on units dipping 50 degrees north; accuracy ±25%
- missing assay interval; indicating ? stopes/workings
- 84-# first phase drilling 1984
- H-# second phase drilling 1984
- P-# Pegasus drilling
- Pegasus surface sample
- third phase drilling H-15 to H-35, 1984
