ASSAY MAP
LEGEND

In the first column is the number of the samples in the second in the width in inches, and in the third column the silver in ounces.

Samples the number of which is preceded by a letter are check samples in 100% of the H.P.C. assays and engineers. All samples are cut in 5-ft intervals and for width of vein only.

LITTLE TREASURE MINE
SADDLE MOUNTAIN DISTRICT ARIZONA
Scale 2"=50'
