

Eliminate most of notes about the dike by showing its contacts (in dashed line if you want to)

No name on this slope + in part at least on Silas. Thread not

Shaded area

See p. 146. This is where the fault here. See if no showing?

bedding slip  
grooves  
Pitch 75° NW  
Thin-bedded  
shaly ls.

Faults?

suspect from p. 142 that contacts of this ls omitted inadvertently

Empire  
200' level  
50 ft/inch

Fault or bedding?
