

EXPLANATION

- Quaternary alluvium, Tertiary gravels; mine tailings and dumps
- MID-TERTIARY
 - Intermediate tuffs and ash flows
 - Latite to andesite dikes
 - White, aphanitic rhyolite
- TERTIARY? - CRETACEOUS? (LARAMIDE?)
 - Fine-grained equigranular granite
 - Quartz porphyry intrusive
 - Quartz veins
- PRECAMBRIAN
 - Diabase
 - Amphibolitic mafic flows, sills and dikes
 - Mafic tuff
 - Felsic tuff
 - Arkosic sandstone (quartzite)
 - Quartz wacke
 - Wacke, fine-grained
- TAILINGS
- OPEN PIT
- SHAFT
- BEDROCK OUTLINE
- CONTACT, DOTTED WHERE INFERRED OR COVERED
- FAULT
- JOINT
- STRIKE AND DIP
- ROAD
- BRAIDED, EPHEMERAL STREAM
