

EXPLANATION

Magnetic contours showing total intensity magnetic field of the earth in gamma units relative to arbitrary datum.

Location of magnetic maximum or minimum intensity within contour high or depth low.

Flight path

NOTE

An unexplained magnetic anomaly (UMA) is indicated by a dashed circle. The location of the anomaly is given in terms of the flight line number and station number. The magnetic intensity of the anomaly is given in gamma units. The magnetic intensity of the anomaly is given in gamma units. The magnetic intensity of the anomaly is given in gamma units.
